

Supplementary Materials: Extract of *Monascus purpureus* CWT715 Fermented from Sorghum Liquor Biowaste Inhibits Migration and Invasion of SK-Hep-1 Human Hepatocarcinoma Cells

Wen-Teish Chang, Cheng-Hung Chuang, Wan-Ju Lee and Chin-Shiu Huang

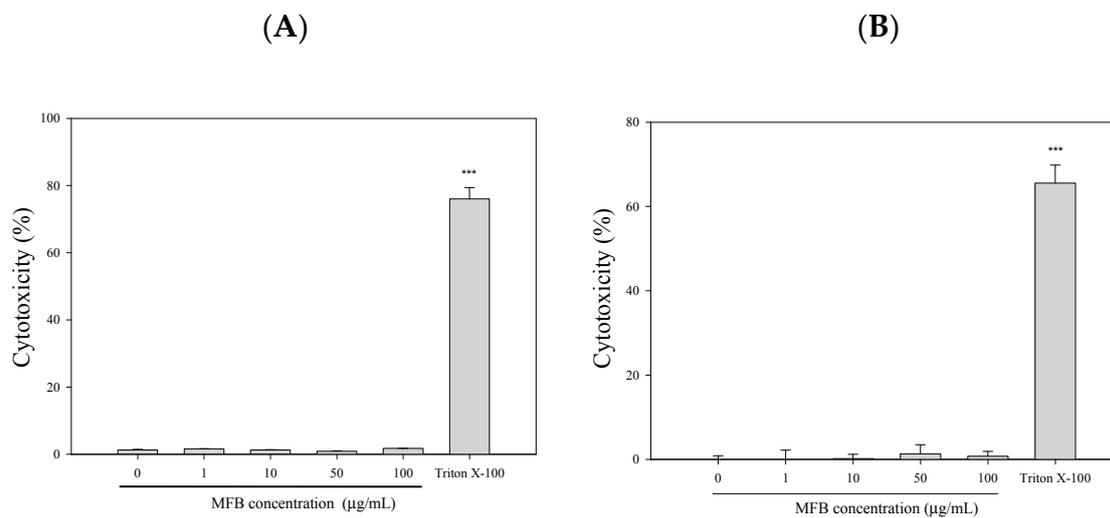

Figure S1. Effects of MFB on the release of LDH in SK-Hep-1 cells. Cells (1×10^4) were incubated with different concentration (1–100 $\mu\text{g}/\text{mL}$) of MFB for 24 h. MFB obtained from 6-day fermentation (A) and from 7-day fermentation (B) were measured the cytotoxicity. Values are means \pm SD, $n = 3$; significant difference from control value was indicated *** $p \leq 0.001$.
