

## Supplementary Materials: PAMP Activity of Cerato-Platanin during Plant Interaction: An -Omic Approach

Simone Luti, Anna Caselli, Cosimo Taiti, Nadia Bazihizina, Cristina Gonnelli, Stefano Mancuso and Luigia Pazzagli

**Figure S1.** *Arabidopsis* plants used in gas exchange and VOCs determination experiments. (A) Plants treated with water (control); (B) plants treated with 150  $\mu\text{M}$  CP (treated); (C) leaves added with 10  $\mu\text{L}$  droplets of water (control); (D) leaves treated with 10  $\mu\text{L}$  droplets of 150  $\mu\text{M}$  cerato-platanin (CP). Bars = 1 cm.
