

# Supplementary Materials: Relaxin 2/RXFP1 Signaling Induces Cell Invasion via the $\beta$ -Catenin Pathway in Endometrial Cancer

Misaki Fue, Yasuhiro Miki, Kiyoshi Takagi, Chiaki Hashimoto, Nobuo Yaegashi, Takashi Suzuki and Kiyoshi Ito

**Figure S1.** Immunofluorescence staining of RXFP1 after the transfection of HEC-1B with 2 different siRNA molecules. Relative intensity values normalized to the values at the control (siC = 100) are shown. Scale bar, 200  $\mu$ m.

**Figure S2.** Immunofluorescence staining of RXFP1 after the transfection of Ishikawa with 2 different siRNA molecules. Relative intensity values normalized to the values at the control (siC = 100) are shown. Scale bar, 200  $\mu$ m.
