

Figure S1

Figure S1. The cerebral layer of cerebral organoids at different stage. **(A)** The immunofluorescence staining for PAX6 (dorsal forebrain NSC marker) and TUJ (newborn neuron marker) in the cerebral organoids at the D45. **(B)** The immunofluorescence staining for SATB2 (late-born neuron marker) and CTIP2 (early-born neuron marker) in the cerebral organoids at D68. Scale bar 100 μ m.
