

Supplementary Figure S1

A

Figure S1: Relative TWF-1 gene expression to housekeeping GAPDH in hPAECs quantified by qRT-PCR. Data is given as mean with SD (n=3 per group). P-value by Student's t-test. ** P<0.01.

Supplementary Figure S2

A

Figure S2: Representative immunoblots of PTEN and MAP3K7 along with housekeeping b-actin loading control in hPAECs preincubated with either HC or PAH EVs followed by transfection of miR inhibitor or mimic. (n=3).
