Multifactorial ANOVA

<i>ido2</i>	ns	ns	<0.001	ns	ns	<0.001	<0.001
-------------	----	----	--------	----	----	--------	--------

Values represent means \pm SD (n = 10). Different symbols stand for statistically significant differences attributed to stress. Capital letters stand for statistically significant differences attributed to sampling time. Low case letters stand for significant differences attributed to dietary treatment (Multifactorial ANOVA; Tukey post-hoc test; ns: non-significant; P \leq 0.05).
