

Space experiment	August																
	22	23	24	25	26	27	28	29	30	31		1	2	3	4	5	6
1. Bacteria for proteomic research (4 cuvettes) and TEM (2 cuvettes)																	
2. Bacteria for plating (4 cuvettes) and SEM (2 cuvettes)																	
Ground experiment	August																
	22	23	24	25	26	27	28	29	30	31		1	2	3	4	5	6
1. Bacteria for proteomic research (2 cuvettes + 2 controls)																	
2. Bacteria for plating (2 cuvettes + 4 controls)																	
3. Bacteria for TEM (2 cuvettes + 4 controls)																	

-  - Start from Earth
-  - Experiment
-  - 144 h fixation
-  - Return to Earth
-  - 24 h ground control fixation
