

S1:

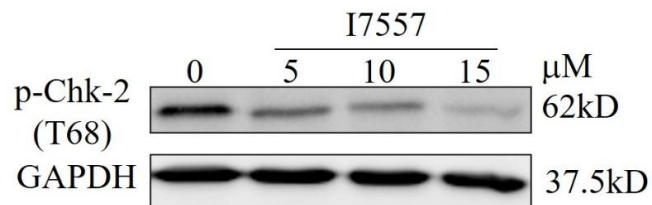

A. p-Histone H3

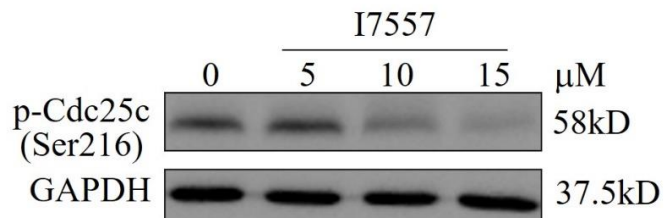

B. p-Chk-1

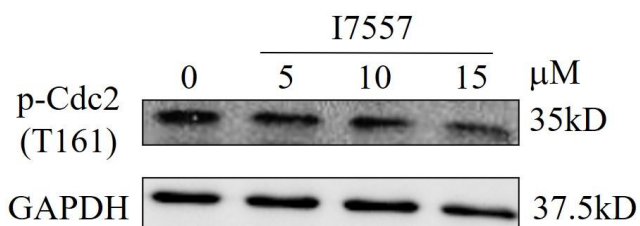

C. p-Chk-2

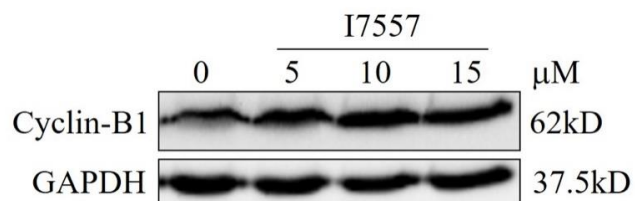

D. p-Cdc25c

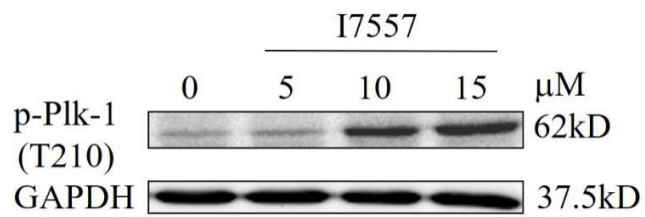

E. p-Cdc2

F. Cyclin-B1

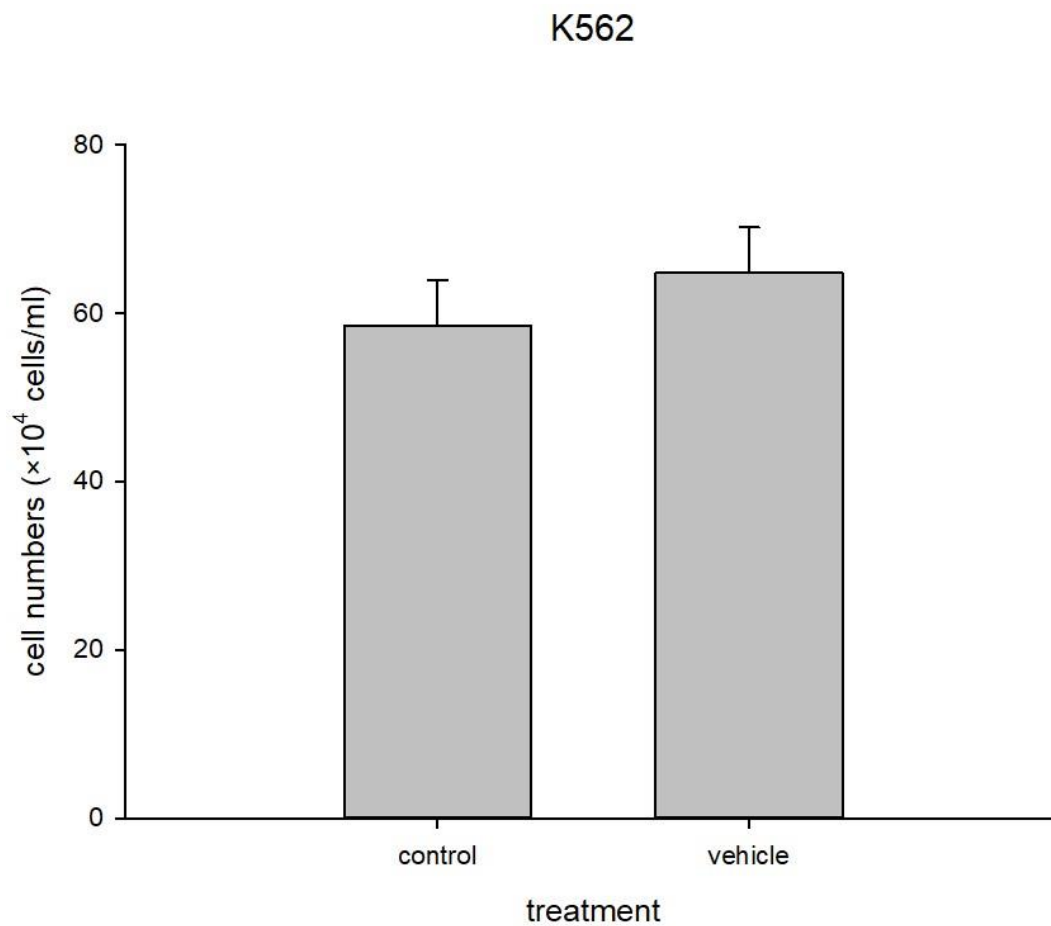

### G. p-Plk-1

### Supplementary Figure S1:

The expression of cell cycle related proteins in K562 cells. Cells were treated by I7557 (0 – 15 μM) for 48 hours.

### S2:

### Supplementary Figure S2:

There is no significant difference of cell viability with comparison of control group and vehicle group (DMSO).
