

Supplementary Materials

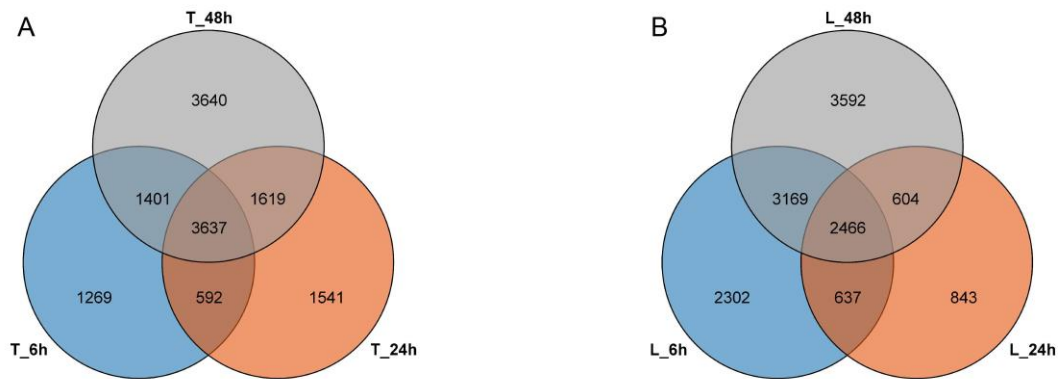

Figure S1. Venn diagram analysis showing DEGs under different time treatments. (A) DEGs of *O. taihangensis*. (B) DEGs of *O. longilobus*.

Note: T: *O. taihangensis*. L: *O. longilobus*.

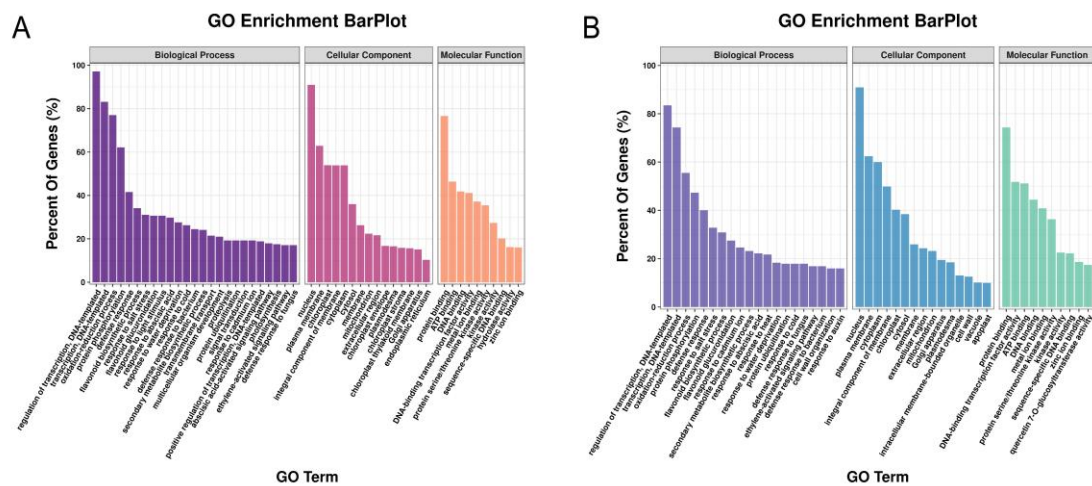

Figure S2. GO enrichment analysis of shared DEGs under time gradients. (A) GO enrichment analysis of *O. taihangensis*. (B) GO enrichment analysis of *O. longilobus*.

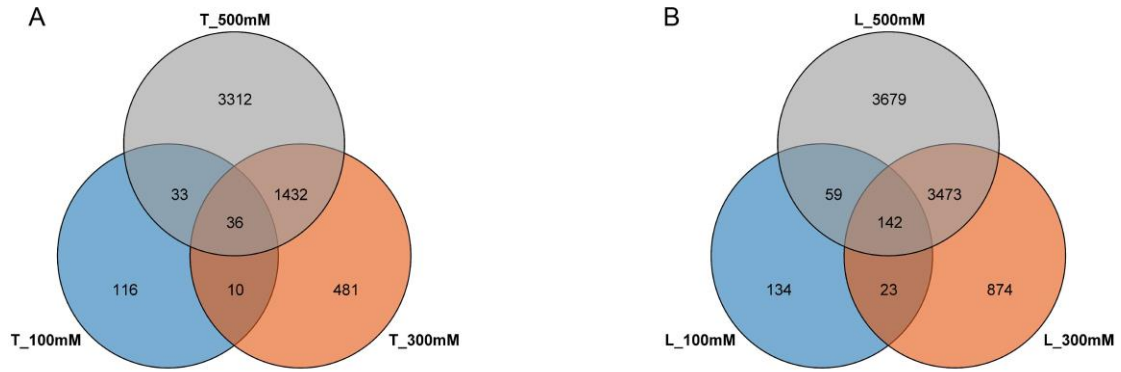

Figure S3. Venn diagram analysis showing DEGs under different concentration gradients. (A)

DEGs of *O. taihangensis*. (B) DEGs of *O. longilobus*.

Note: T: *O. taihangensis*. L: *O. longilobus*.

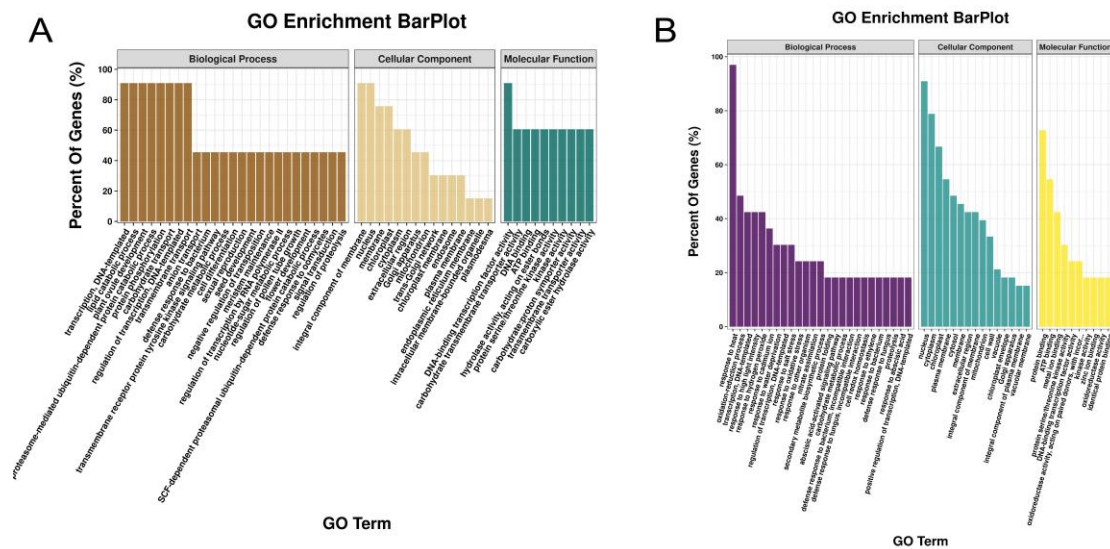

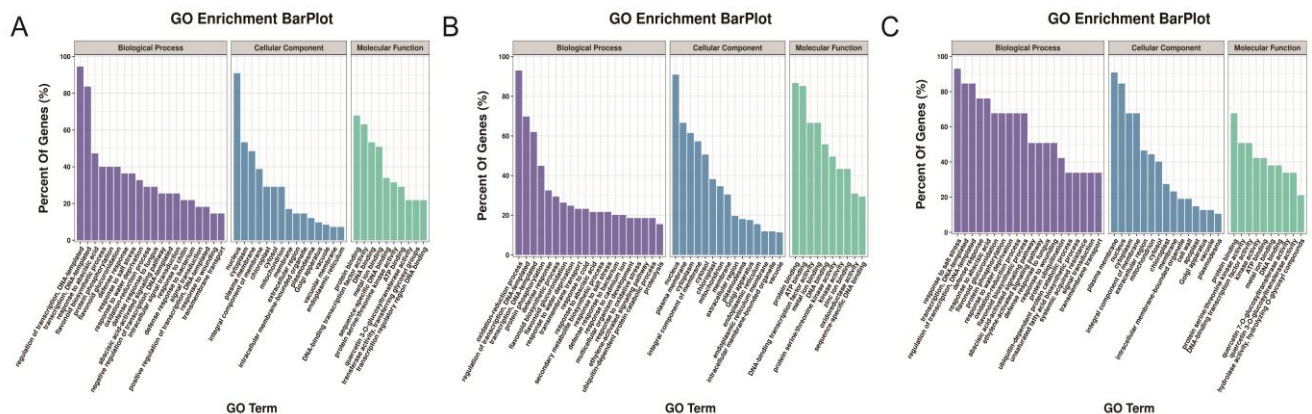

Figure S4. GO enrichment analysis of shared DEGs under concentration gradients. (A) GO

enrichment analysis of *O. taihangensis*. (B) GO enrichment analysis of *O. longilobus*.

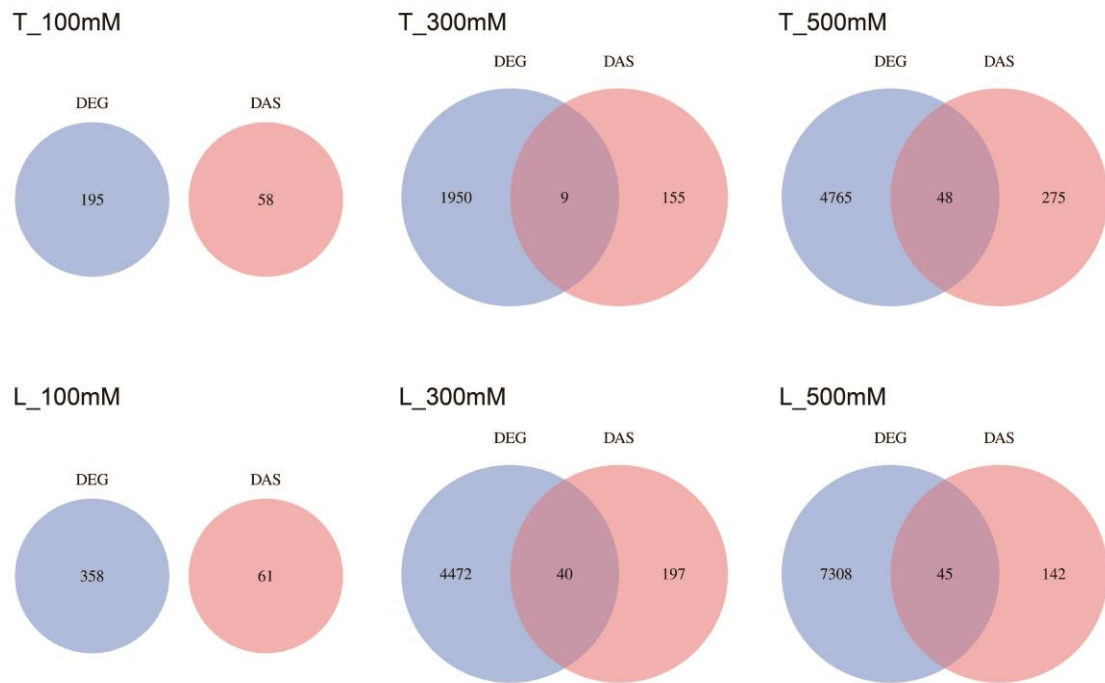

Figure S8. Venn diagram analysis showing overlaps between DEG and DAS under concentration gradients.

Note: T: *O. taihangensis*. L: *O. longilobus*.

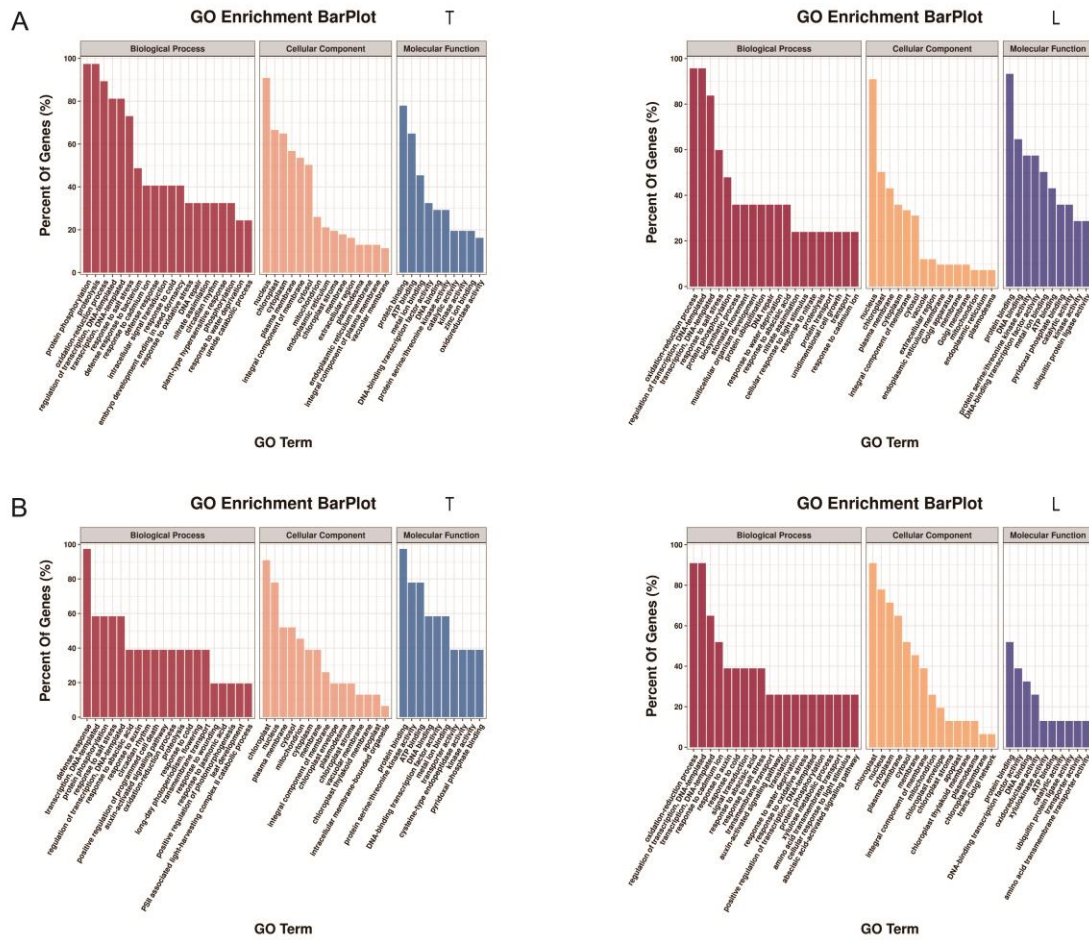

Figure S9. GO enrichment analysis of overlapped genes. (A) GO enrichment analysis of overlapped genes under time gradients. (B) GO enrichment analysis of overlapped genes under concentration gradients.

Note: T: *O. taihangensis*. L: *O. longilobus*.

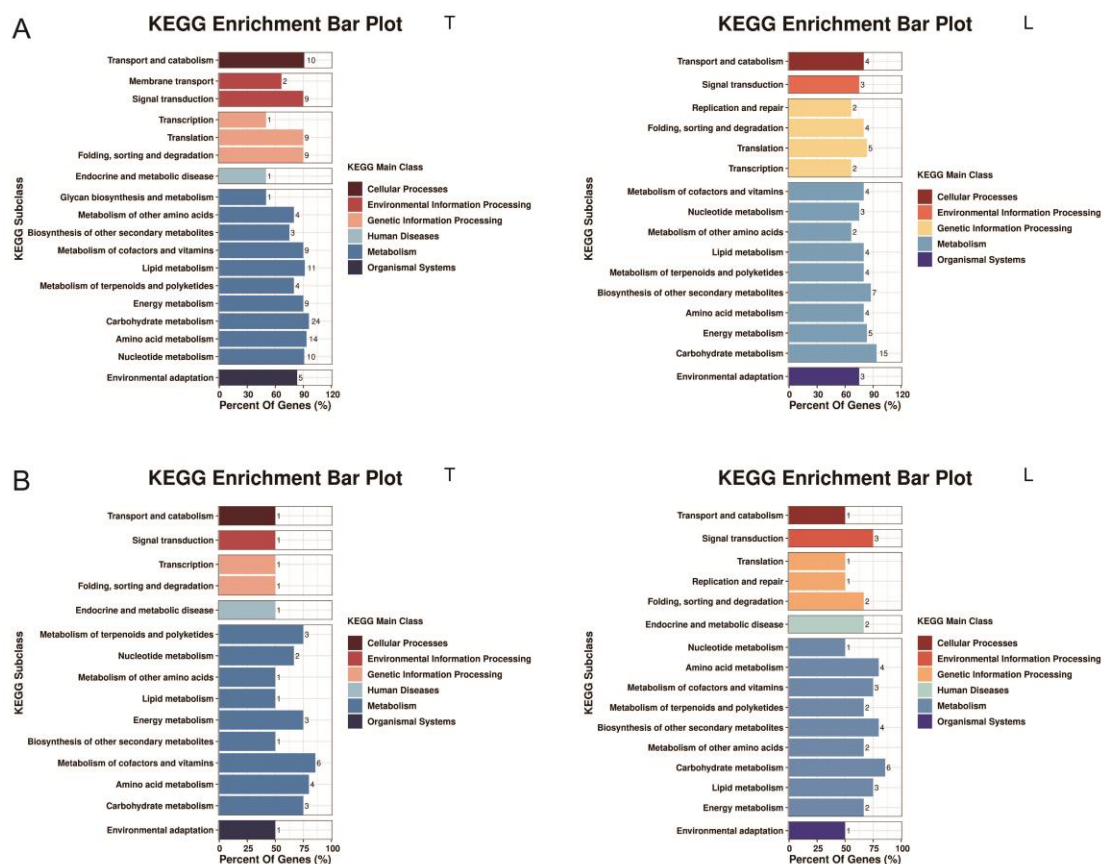

Figure S10. KEGG enrichment analysis of overlapped genes. (A) KEGG enrichment analysis of overlapped genes under time gradients. (B) KEGG enrichment analysis of overlapped genes under concentration gradients.

Note: T: *O. taihangensis*. L: *O. longilobus*.

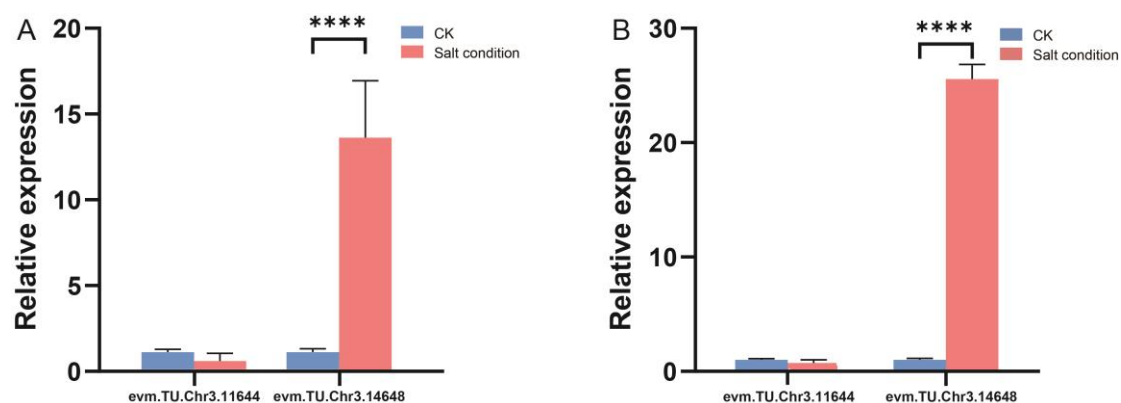

Figure S11. Experimental validation for DAS events under time gradients. (A) qRT-PCR analysis of *O. taihangensis*. (B) qRT-PCR analysis of *O. longilobus*.

Figure S12. Experimental validation for DAS events under concentration gradients. (A) qRT-PCR analysis of *O. taihangensis*. (B) qRT-PCR analysis of *O. longilobus*.

Table S1. Primers for qRT-PCR validation.

Gene ID	Primers (5'-3')
<i>evm.TU.Chr3.11644</i>	F: TCATTCTCAGAGCCTCACAAGC R: TGGCACTAGAACCAACCATAACC
<i>evm.TU.Chr3.14648</i>	F: ATGCTCGTCTTCAGGTTCTCA R: CCAAGGACACTGTTGTGATTCT
<i>evm.TU.Chr7.7319</i>	F: AGCGGTATCAGTCCTTAGATGG R: CTGCGGTCTTCGTTCTATGT
<i>evm.TU.Chr8.13443</i> (Actin)	F: CCTACAACGCCACACTCTCA R: ACAGCAAGTTACACCACTCATG

Table S2. DEGs under different salt treatments

Sample	Number of DEGs	Up	Down
T_6h	6899	3986	2913
T_24h	7389	4174	3215
T_48h	10297	5504	4793
L_6h	8574	4483	4091
L_24h	4550	2764	1786
L_48h	9831	5425	4406
T_100mM	195	77	118
T_300mM	1959	1127	832
T_500mM	4813	2593	2220
L_100mM	358	189	169

L_300mM	4512	2333	2179
L_500mM	7353	3767	3586

Note: T: *O. taihangensis*. L: *O. longilobus*.

Table S3. Statistics on the number of AS events

Sample	Number of AS events	SE	MXE
T_6h	4721	4555	166
T_24h	4831	4647	184
T_48h	4324	4180	144
L_6h	5271	5060	211
L_24h	5387	5148	239
L_48h	4428	4274	154
T_100mM	4294	4122	172
T_300mM	5154	4945	209
T_500mM	6660	6366	294
L_100mM	3941	3796	145
L_300mM	5495	5262	233
L_500mM	5311	5089	222

Note: T: *O. taihangensis*. L: *O. longilobus*.

Table S4. Statistics on the number of DAS events

Sample	Number of DAS events	SE	MXE
T_6h	180	173	7
T_24h	198	194	4
T_48h	552	529	23
L_6h	175	173	2
L_24h	162	156	6
L_48h	258	242	16
T_100mM	60	57	3
T_300mM	172	163	9

T_500mM	334	324	10
L_100mM	62	62	0
L_300mM	242	241	1
L_500mM	190	182	8

Note: T: *O. taihangensis*. L: *O. longilobus*.
