Table S2. Information on ecological characteristics and medicinal benefits of studied plant species. (References: Jongbloed et al. 2003; Musa et al. 2006; Soltan and Zaki, 2009; Jain et al. 2010; Abiodun, 2010; Wagate et al. 2010; Sakkir et al. 2012; Ghasemi et al. 2013; Zain et al. 2014; Teshome and Feyissa 2015; Abaza et al. 2016; Abdelgawad, 2017; Al Naqbi, 2017; Hanif et al. 2018; Janbaz et al. 2021; Abutbul et al., 2005).

Species	Growth form	Occurrence	Habitat preference	Parts used	Medicinal uses/ activities
Amaranthaceae					
<i>Achyranthes aspera</i>	Small shrub	Not common	Wadi bed, plantations, waste ground	Roots	Scorpion stings
<i>Aerva javanica</i>	Small shrub	Common	Alluvial and gravel plain, mountain, plantations, sand plain, Wadi bed, waste ground	Flowers, Leaves, roots, Whole plant	Anthelmintic, antibacterial, diuretic, and for eye antimony
<i>Amaranthus hybridus</i>	Herbaceous	Not common	Alluvial plain, mountain, plantations, sand plain, Wadi bed, waste ground	Leaves, whole plant	Intestinal bleeding, diarrhea, excessive menstruation, urinary tract infection, kidney and stomach ailments
<i>Amaranthus viridis</i>	Herbaceous	Not common	Plantations, mountain, sand plain, waste ground	Leaves	Scorpion stings, snake bites and itchy skin rash
<i>Atriplex leucoclada</i>	Small shrub	Locally common	Gravel plain, mountain, salt sheets, Wadi bed	Leaves	Emollient, cough and sore throat

<i>Haloxylon persicum</i>	Shrub	Locally common	Sand plain	Aerial parts	Antibacterial and antifungal
<i>Haloxylon salicornicum</i>	Small shrub	Common	Gravel plain, mountain, salt sheets, sand plain	Stems	Ringworm, intestinal problems and for hypoglycemia
<i>Salicornia persica</i>	Herbaceous	Rare	Salt sheets, tidal area	-	Salicornia oil is used in Traditional Medicine: bronchitis, liver swelling, diarrhea, hyperglycemia, anti-inflammation
<i>Salsola imbricata</i>	Small shrub	Common	Alluvial plain, gravel plain, sand plain, waste ground	Whole plant, aerial parts	Vascular hypertension, abdominal distension, constipation indigestion, diarrhea, dysentery, cold, asthma, migraine, headache and inflammations
<i>Suaeda aegyptiaca</i>	Herbaceous	Common	Gravel plain, plantations, sand plain, salt sheets, waste ground	Stem, leaves	Tooth and gum infections, snuff for dizziness, headaches, hysteria, nausea, calming the nervous system and improving poor vision.
<i>Suaeda vermiculata</i>	Small shrub	Common	Salt sheets near coastal regions and Sabkhahs	Stems	Breathing difficulty
<i>Caryophyllaceae</i>					
<i>Sclerocephalus arabicus</i>	Herbaceous	Common	Alluvial plain, gravel plain, mountain, sand plain, Wadi bed	-	Traditional and folk medicine

Gisekiaceae

<i>Gisekia pharnacioides</i>	Herbaceous	Not common	Sand plain	Whole plant	Swellings, purgative, aperient, anthelmintic, killing roundworms, destroys fat and in malfunctioning of sex organs
------------------------------	------------	------------	------------	-------------	--

Molluginaceae

<i>Glinus lotoides</i>	Herbaceous	Rare	Alluvial plain	Aerial parts, Seeds	Anticancer, anti-helminthic, purgative, boils, biliary attack, wounds, pains, and urinary disorders.
<i>Paronychia arabica</i>	Herbaceous	Locally common	Gravel plain, mountain, plantations, sand plain, Wadi bed	Whole plant	Aphrodisiac

Polygonaceae

<i>Calligonum comosum</i>			Sand plain, roadsides	Leaves, stems	Toothache, tonic
<i>Calligonum crinitum</i>	Small shrub	Locally common	Sand plain	Aerial parts	Antioxidant

Portulacaceae

<i>Portulaca oleracea</i>	Herbaceous	Common	Alluvial plain, gravel plain, plantations, sand plain, waste ground	Leaves, whole plant	Laxative, diuretic, soothe skin, bacterial dysentery, diarrhea, and worm infection.
---------------------------	------------	--------	---	---------------------	---

Tamaricaceae

<i>Tamarix aucheriana</i>	Shrub	Locally common	Salt sheets	Aerial parts	Colorectal cancer
<i>Tamarix nilotica</i>	Shrub	Common	Salt sheets, roadsides	Aerial parts, leaves, young branches,	Spleen edema, eyes sore, fever, headaches, ulcer aperient, sudorific, expectorant, carminative, astringent, and diuretic

Table S3. List of Primers with their thermal profile used in this study.

Locus	Primer Id	Sequence (5' to 3')	Thermal Profile		
			Denaturation	Annealing	Extension
