

**Table S1.** The results for chosen models trained using the Pollen13K dataset

Model	Accuracy for Pollen13K Data
FinetunedPollen13K_AlexNet	95.43%
ScratchPollen13K_AlexNet	91.81%
FinetunedPollen13K_ResNet	95.53%
ScratchPollen13K_ResNet	93.47%

**Table S2.** The comparison of SimpleModel accuracies for the filter size.

	Filter Size $3 \times 3$	Filter Size $4 \times 4$	Filter Size $5 \times 5$
<b>Final accuracy on test set (after 100 epochs)</b>	68%	80%	72%
<b>The best accuracy on test set</b>	76%	80%	78%

**Table S3.** The detailed outcomes of  $3 \times 10$ CV of the models pre-trained on ImageNet images and fine-tuned on ABCPollen microscopic images.

		Repetition 1		Repetition 2		Repetition 3
