

Supplementary Materials

Table S1: Study of the stability of NUC041 formulated in PPD stored at 2-8°C for 60 days, as measured by HPLC.

ID	Assay (mg/mL)	% Recovery vs assay time 0
NUC041 in PPD time 0	16.24	-
NUC041 in PPD day 60	16.05	98.8

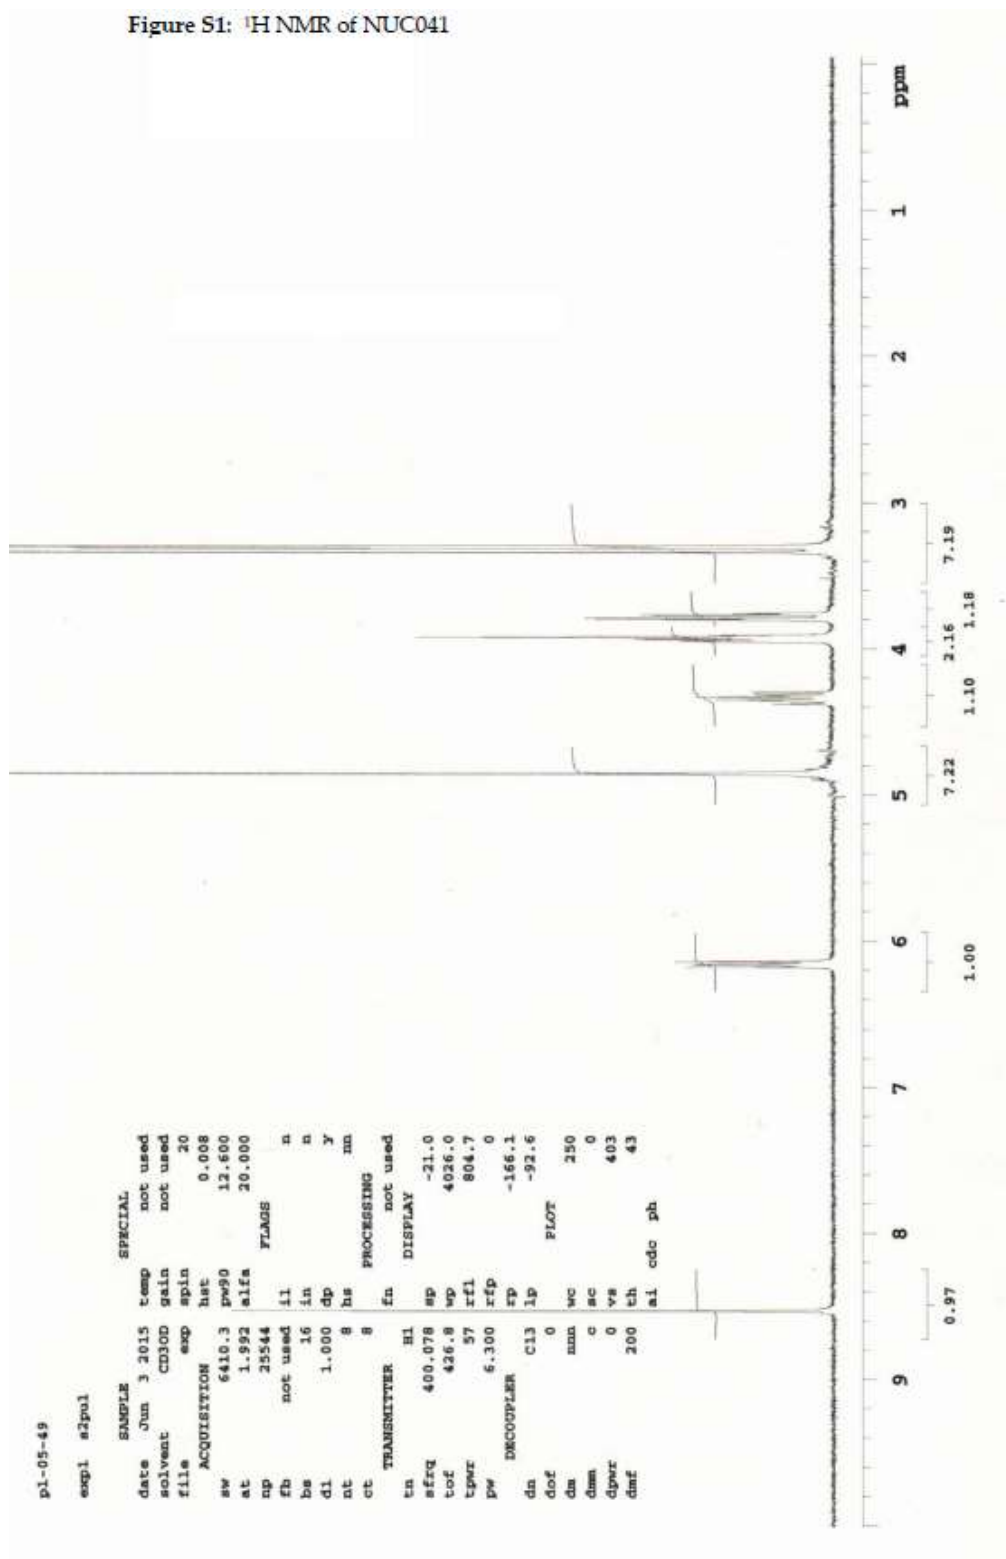

Figure S1: NUC041 formulated in PPD is stable when it is stored at 2-8°C for 60 days. The recovery at this storage condition for 60 days is approximately 98.8%.
