

Supplementary Information

Table S1. Screening of marine bacterial material, extracts and culture supernatants for interference with *S. aureus* virulence gene expression. Down-Regulation of *hla* and combined down-regulation of *hla* with up-regulation of *spa* is listed in the table. Data on genus/species identification and antimicrobial activity are from [1].

Isolate No.	Genus	<i>hla</i> interference (<i>hla</i> down)			<i>hla/spa</i> interference (<i>hla</i> down, <i>spa</i> up)			Antimicrobial activity against <i>S. aureus</i>
		Supernatant	Extract	Colony mass	Supernatant	Extract	Colony mass
