The authors wish to make the following corrections to the above-mentioned published paper [1]:

1. During production, an error occurred in the layout of Figure 1 ‘Learning impact of KLIK, as self-assessed by the children’ on page 6. As a result, the clarifying text did not align well with the bar chart. The corrected figure should be as depicted below.
2. In the supplementary materials, an incomplete and partly Dutch version of Table S1 ‘Activities with the children in the KLIK-program 2016–2019’ (ijerph-668898-Table 1.pdf) was accidentally provided in the original version of our article [1]. This should be replaced by ‘Table S1_Activities KLIK-project 2016–2019_Corrected’.

The authors would like to apologize for any inconvenience caused to the readers by these changes.

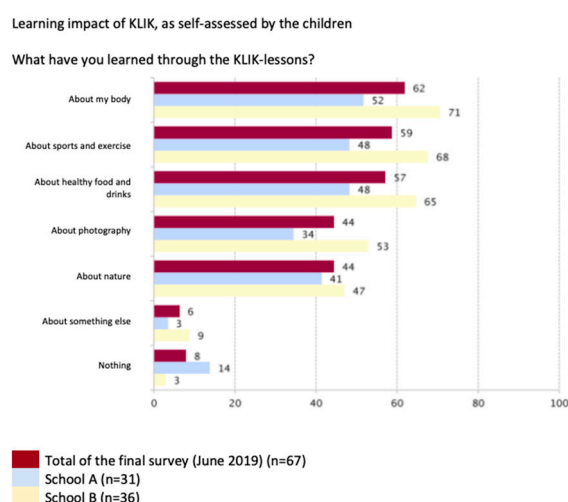

Figure 1. Learning impact of KLIK.
