

Supplementary Materials

Table S1: Search Keywords

Main word	Synonyms/Relevant Words/Keywords
Physical Activity	Physical activities, exercise, exercises
Stress	Stresses, physical pressure, mental pressure, anxiety, panic, panics, anxieties, worry, worries, nervousness, apprehension, mental wellbeing, mental well-being, psychological
Sleep/Sleeps	Bedtime
Air pollutant	Air pollutants, air pollution, air quality, particle pollution, particulate matter
Social interaction	Social interactions, social behaviour, social behaviours, social relation/relations, sense of community, social cohesion, social skills, bonding, group cohesiveness, unity, social wellbeing/well-being, socio-economic condition/conditions, socio-economic status
Noise	Noises, sound pollution, sound pollutant/pollutants
Green and Blue space/spaces	Blue space/spaces, canal/canals, water body/bodies, green and blue infrastructure, blue infrastructure, aqueduct/aqueducts, wetland/wetlands, urban waterway/waterways, riparian corridor/corridors, lake/lakes, river/rivers

Table S3: Inclusion / Exclusion Criteria

	Inclusion Criteria:	Exclusion Criteria:
Population	General human population	Non-human populations
Intervention	All inland waterways, coastal environments, canalled areas, blue infrastructure (BI), navigable transportation canals, aqueducts, lakes, marinas, rivers, ponds, reservoirs, marshes, estuaries, fountains, streams, reconstructed or recalibrated wetlands, waterfront parks, deculverted/daylighted areas, open air streams, urban waterways, riparian corridors, recalibrated urban parks, urban forests, natural preserves.	Studies looking at any other settings or virtual environments.
Context	All urban, peri-urban, rural environments	
Outcome	Studies with one or more of the outcomes measured being a direct effect on: <ul style="list-style-type: none"> • Restoration • Physical Activity • Social Interactions • Environmental Factors (temperature, noise, air pollution, etc.) • Other health related causal pathways/mechanisms 	<ul style="list-style-type: none"> • General studies about canals, green and blue infrastructure or green and blue spaces • Studies without explicit mention of their direct impacts on health mediators (restoration, physical activity, environmental factors, social interaction).
Type of Studies	<ul style="list-style-type: none"> • Studies including scientific and empirical evidence; • Quantitative studies with experimental or observational designs; • Cross-sectional studies; • Cohort studies; • Longitudinal studies; • Meta-analyses; • Case studies of specific sites; • Natural experiments; • Prospective studies; 	<ul style="list-style-type: none"> • Qualitative studies; • Opinion pieces; • Theoretical papers; • Non-peer-reviewed studies

<ul style="list-style-type: none"> • Randomised controlled trials; • Case reports and series; • Experiments conducted in controlled laboratory settings; • Cross-over studies; • Evaluation studies;
