

## Supplementary Materials

# Mass Concentration, Source and Health Risk Assessment of Volatile Organic Compounds in 9 Cities of Northeast China

### Supplementary Materials

**Table S1.** Comparisons of the normal concentrations of each chemical group (alkane, alkene, aromatics) measured in 9 cities of NRC in July, 2009.

Num ber	Species	Shen- yang		Anshan		Huludao		Tianjin		Fushun		Chang- chun		Jilin		Harbin		Daqing
