

### 360VRFit Cycle2

You can download it from the link below.  
[https://play.google.com/store/apps/details?id=vrfit.mtome.com.cycle2\\_360](https://play.google.com/store/apps/details?id=vrfit.mtome.com.cycle2_360)

It's saved on your phone.

Register ID and password

Click the SIGN UP part, register your ID and password, and check the registered email to register.

Turn on "on" by turning the visible part on the side of the sensor upward.

Attach the sensor to the pedals of your bike

Attach the sensor to the pedals of your bike

Start exercising after registering the sensor

○ Click this part to set the sensor  
○ Tap here to set pre-workout music  
○ Click here to start the exercise.

If you put the set mobile phone into the HMD and start exercising, it will look like this screen.
