

Figure S1. Selected thermogram features evaluated in the study: thermogram peak width at half height (Width); total area under the thermogram (Area), maximum peak height (Max), temperature of the peak maximum (T_{max}), first moment temperature (T_{FM}), maximum excess specific heat capacity (C_p^{ex}) of Peaks 1, 2, and 3 (Peak 1, Peak 2, and Peak 3, respectively) and the position of Peaks 1, 2, and 3 ($T_{\text{peak 1}}$, $T_{\text{peak 2}}$, and $T_{\text{peak 3}}$, respectively).
