

Supplementary Figure S1

Figure S1. The attributes of ornamental plants were subdivided into four categories based on vegetation type, flower color, leaf color, and layer. I-A–I-F represent grassland, shrub, broad-leaf tree, coniferous tree, bamboo, and palm, respectively; II-A–II-F represent blue, red, pink, purple, white, and yellow flowers, respectively; III-A–III-C represent green, yellow, and red leaves, respectively; IV-A–IV-D represent tree + shrub + grass, shrub + grass, shrub, and grass, respectively.
