

Supplementary Figure S1 - Egg load assessed by dissecting the abdomen of a female of *Cydalima perspectalis* (Walker). The number of mature eggs was counted under a microscope at 115 × magnification. Bigger and well-formed eggs with a smooth surface were categorized as mature eggs (red arrow).

Supplementary Table S1 - Sampling sites monitored in the three-year period 2019–2021

Surveyed site	Province	Geographic coordinates		Altitude (a.s.l.)
		N	E	
Garessio	Cuneo	44 °10'33.7"	07 °59'10.1"	450 m
Pradleves	Cuneo	44 °24'44.6"	07 °16'16.3"	813 m
Vernante	Cuneo	44 °14'13.1"	07 °32'36.3"	857 m
