

Suppl. Fig. 1. Further efforts to detect TLR2 expression in mTECs.

Expression of TLR2 was evaluated further by flow cytometry using multiple anti-TLR2 antibody clones and mTEC cultures prepared from both WT and *Tlr2*^{-/-} mice. **(a)** Percentage live CD326⁺ cells detected with the anti-TLR2 clone, 6C2 (see also Figure 3). **(b)** Flow plots documenting sample results as shown in (a), **(c)** Percentage of live CD326⁺ cells detected with the anti-TLR2 clone, 11G5. **(d)** Percentage of live CD326⁺ cells detected with the anti-TLR2 clone CB225.
