

Figure S1. DsRNA profiling of BGDaV1-containing isolates reveals co-infections. M: 1kb Plus DNA molecular weight marker (Invitrogen).

Supplementary Table S1. Mechanical transmission and stability of BGDaV1. Presence (+) or absence (-) of BGDaV1 in different sub-cultures of newly developed progeny as detected by PCR.

	Experiment 1			Experiment 2			Experiment 3		
Virus donor	339-13	339-49	339-101	339-13	339-49	339-101	339-13	339-49	339-101
Sub-culture 1	No transmission			+	+	+	-	+ ¹	+ ¹
Sub-culture 2				-	+	+	-	+	+
Sub-culture 3				-	+	-	-	-	+

¹ isolates used for growth rate and virulence assessment.
