Cagliari tel. 070.6092705

**African Swine Fever (ASF) is a highly contagious disease of domestic pigs and wild boars. There is no vaccine to fight it. It is not a danger to human health but is a danger to our agricultural economy leading to severe economic losses**

**Virus is highly resistant in the environment**

**We all play a key role in preventing the spread of African Swine Fever**

## Finding wild boar carcass

### What to do?

- 1) **Do not touch the carcass**
- 2) **Call the ASSL Veterinary Service immediately**
- 3) **Store your position on your mobile phone**
- 4) **Take a photo**

## RESPECT GENERAL PRECAUTIONS

**Report any suspected cases to the Veterinary Service**

**Don't touch  
Don't move the carcass**

**Disinfect your shoes before getting into the car**
