

SUPPLEMENTARY MATERIAL

Microplastics as transporters of chromium and lead during dynamic simulation of the human gastrointestinal tract

Verónica Godoy, Antonio Martínez-Férez, María Ángeles Martín-Lara, José Antonio Vellido-Pérez, Mónica Calero and Gabriel Blázquez

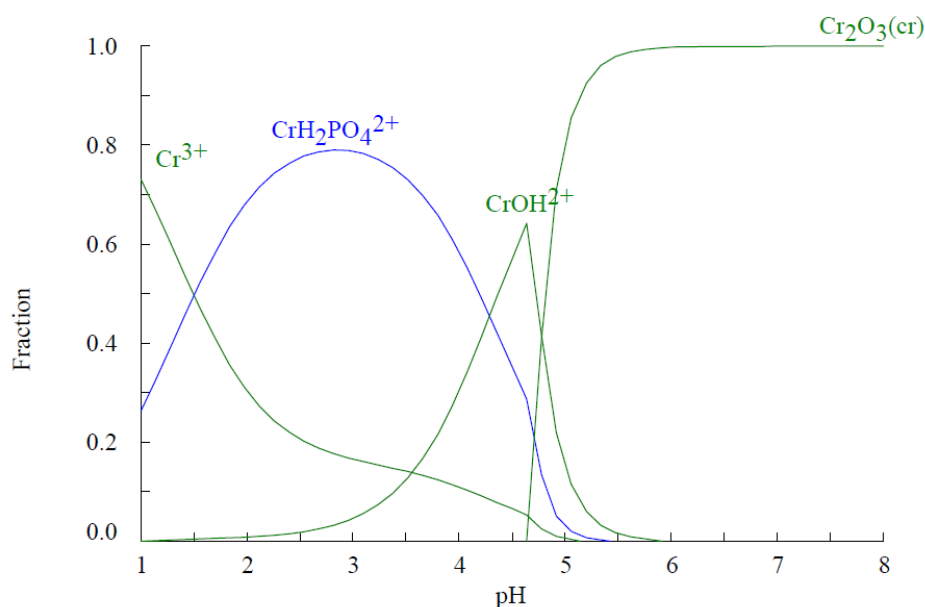

Figure S1. Solubility diagram of Cr^{3+} at 25°C in the presence of compounds forming part of GSF in the in-vitro tests. This species diagram relates the molar fraction of each species as a function of pH. The blue line indicates a chemical complex.
