

Dynamic changes, spatiotemporal differences, and ecological effects of impervious surfaces in the Yellow River Basin, 1986–2020

Supplementary Materials

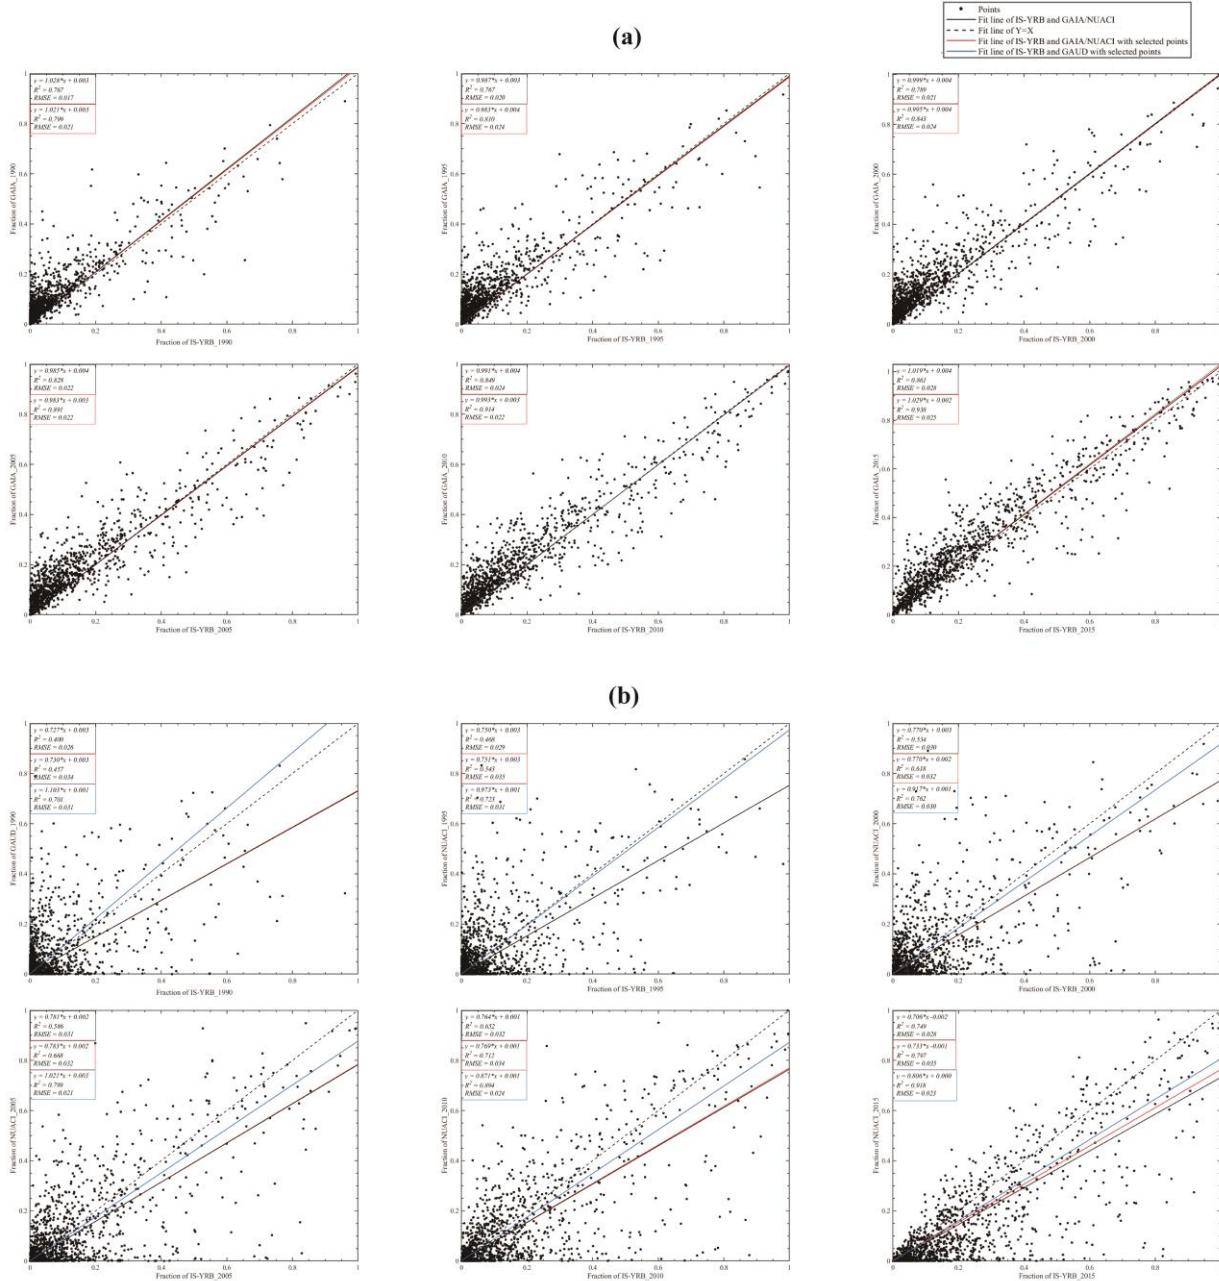

Figure S1. Scatterplots between impervious surfaces-Yellow River Basin (IS-YRB) and global artificial impervious areas/normalized urban areas composite index/global annual urban dynamics (GAIA/NUACI/GAUD) datasets with selected points which stripped the villages and towns agglomeration areas in 1990, 1995, 2000, 2005, 2010, and 2015: the scatterplots between (a) IS-YRB and GAIA and (b) between IS-YRB and NUACI/GAUD.

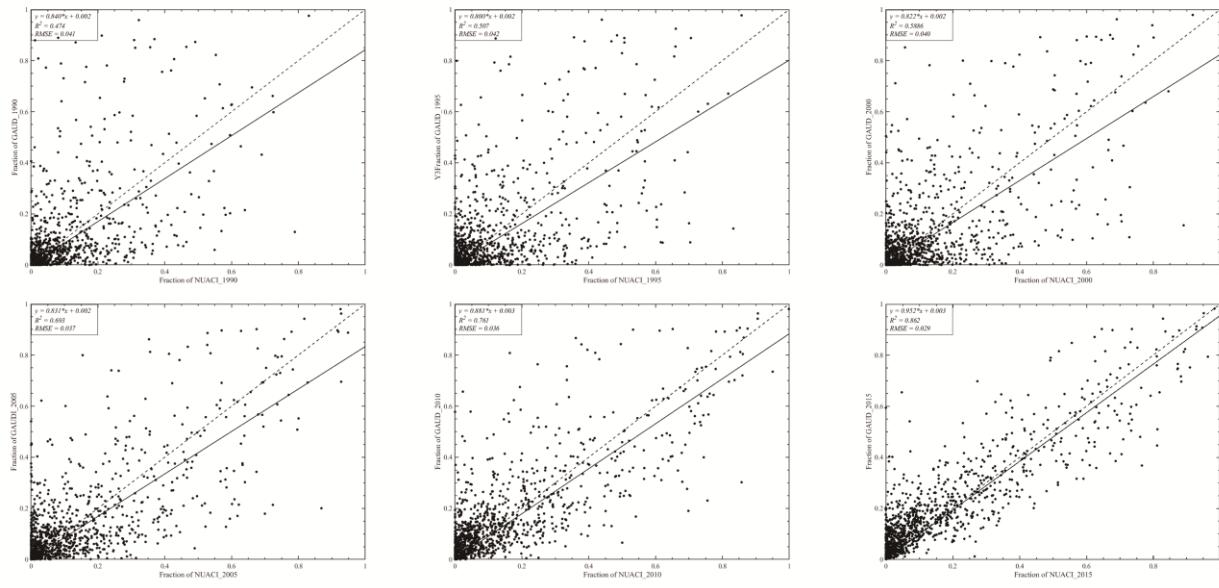

Figure S2. Scatterplots between normalized urban areas composite index (NUACI) and global annual urban dynamics (GAUD) datasets in 1990, 1995, 2000, 2005, 2010, and 2015.
