

Supplemental figure S1: Design of the RyeWeight study. Abbreviations: DXA, dual-energy x-ray absorptiometry; 3DWFR, 3-day weighed food record.

Supplemental figure S2: Flow chart of the participants in the RyeWeight study

Supplemental figure S3: Alpha diversity, shown as Shannon's diversity index (top), Chao1 index (middle) and Simpson's index (bottom) in the rye and the wheat groups at week 0, week 6 and week 12. There was no significant difference between the groups at any time point ($p>0.05$).

Supplemental table S1: Overview of the intervention products used in the RyeWeight study

	Cereal ingredients	Fermentation (breads)	Supplier (Commercial name)
Extruded rye puffs	Whole grain rye flour (100% of flour weight)	-	Lantmännen (-*)
Rolled rye flakes	100% wholegrain rye	-	Lantmännen (AXA Rågflingor)
Rye crisp bread 'Rågi'	Whole grain rye flour (73% of flour weight), sifted rye flour (27% of flour weight)	Yeast	Barilla (Wasa Rågi)
Rye crisp bread 'Husman'	Whole grain rye flour (100% of flour weight)	Yeast	Barilla (Wasa Husman)
Rye crisp bread 'Sport'	Whole grain rye flour (100% of flour weight)	Yeast	Barilla (Wasa Sport)
Rye crisp bread 'Delikatess'	Whole grain rye flour (100% of flour weight)	Unfermented	Barilla (Wasa Delikatess)
Soft rye bread	Whole grain rye flour (100% of flour weight)	Yeast	Lantmännen (-*)
Extruded wheat puffs	Sifted wheat flour (100% of flour weight)	-	Lantmännen (-*)
Wheat semolina	100% Sifted wheat	-	Lantmännen (AXA mannagryns)
Wheat crisp bread	Sifted wheat flour (100% of flour weight)	Yeast	Barilla (Wasa Frukost)
Soft wheat bread	Sifted wheat flour (100% of flour weight)	Yeast	Lantmännen (Schulstad Sandwino Sub)

*Product was developed and produced for the study and is not commercially available.

Supplemental table S2: Composition of intervention products, per 100 g edible product. Participants were instructed to consume 60 g breakfast cereals (puffs or flakes/semolina), 4-6 slice of crisp bread (53-66g) and one serving of soft bread (Wheat: 70g, rye: 119g) per day, why the intake as per protocol varied depending on the participants choice of crisp bread and breakfast cereals.
