Association of Serum Metabolites and Salt Sensitivity of Blood Pressure in Chinese Population: The EpiSS Study

Fengxu Zhang [†], Yunyi Xie [†], Xiaojun Yang, Wenjuan Peng, Han Qi, Bingxiao Li, Fuyuan Wen, Pandi Li, Yuan Sun and Ling Zhang ^{*}

Table of Contents

Table S1. Annotated serum metabolites associated with SS relative to SR	2
Table S2. Metabolic pathway analysis of differential metabolites between SS and SR	4
Table S3. Results of metabolites related logistic regression models for SS.	6
Table S4. ROC analysis of SS.	8
Figure S1. Metabolic pathway analysis of differential metabolites between SS and SR	9

Table S1. Annotated serum metabolites associated with SS relative to SR. The results are based on the differential expression analysis on the comparisons of metabolites predicted to be differentially expressed based on cut-offs of adjusted p value < 0.05 and absolute log2 fold change > 0.3.
