

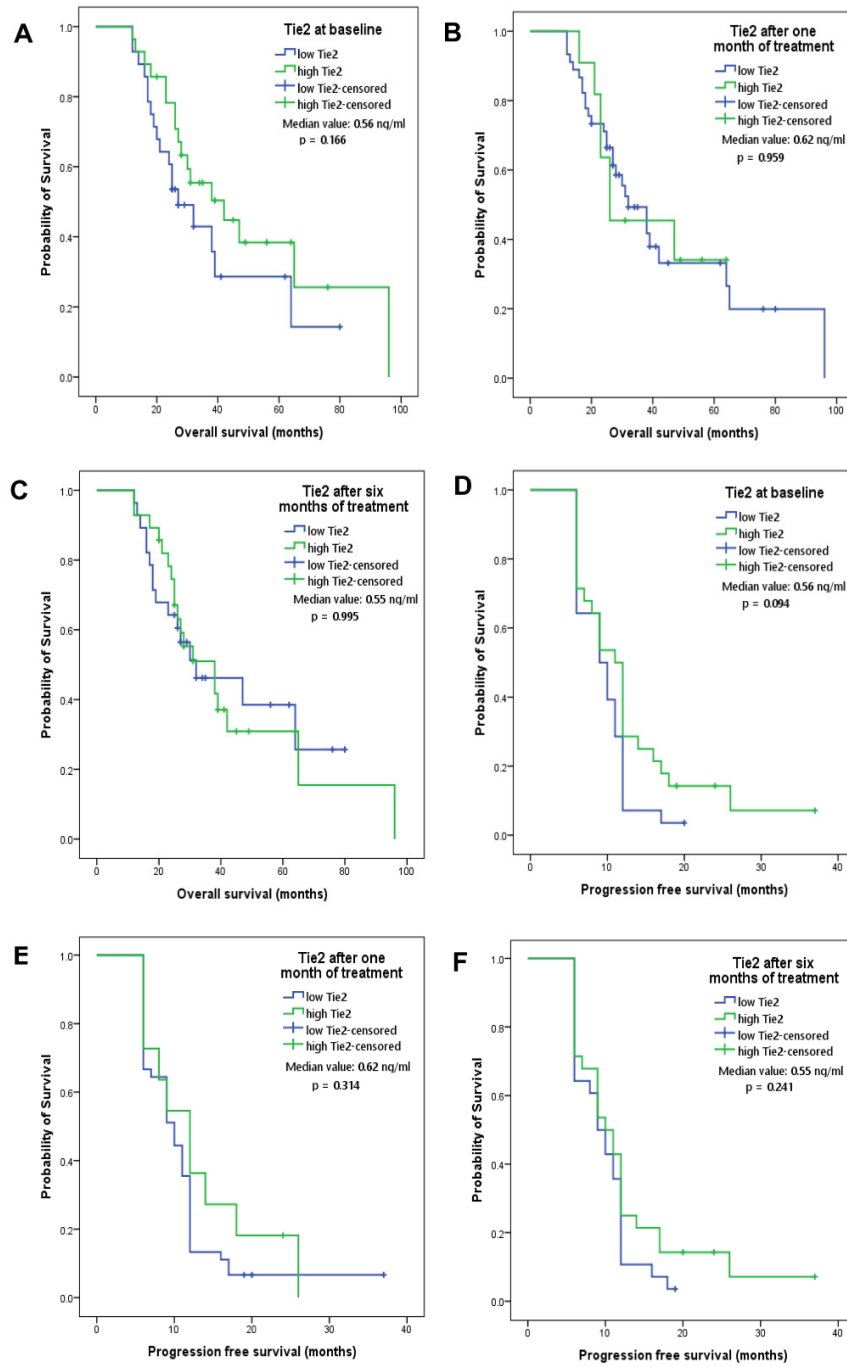

**Figure S1.** Kaplan–Meier curves of overall survival for patients with low or high Copeptin values at (A) baseline, (B) after one month, and (C) after six months of treatment. Kaplan–Meier curves of progression free survival for patients with low or high Copeptin values at (D) baseline, (E) after one month, and (F) after six months of treatment.

**Figure S2.** Kaplan–Meier curves of overall survival for patients with low or high Tie2 values at (A) baseline, (B) after one month, and (C) after six months of treatment. Kaplan–Meier curves of progression free survival for patients with low or high Tie2 values at (D) baseline, (E) after one month, and (F) after six months of treatment.
