

# **Supplementary Material**

**Optimized Conditions for Preparing a Heterogeneous Biocatalyst  
Via Cross-Linked Enzyme Aggregates (CLEAs) of  $\beta$ -Glucosidase  
from *Aspergillus niger***

**Figure S1.** TG (blue curves) and DTG (red curves) analyses for soluble (A) and immobilized (B)  $\beta$ -glucosidase.

(A)

(B)

**Figure S2.** FT-IR analysis for (A) and immobilized (B)  $\beta$ -glucosidase.
