In Minda et al. [1], an error was introduced. We propose the following amendment: Figure 9, in Section 3.2.4 (Days to Maturity and Yield), should be replaced by the following updated figure.

**Figure 9.** Variations in the observed yield (t·ha<sup>-1</sup>) for the eight cultivars as a function of days to crop maturity (d). The colors represent cultivars in four locations (Gaz7—Gazesso, Ger7—Geresse, Der7—Derashe, and Gir7—Gircha) in *belg*-2017 (a) and six locations in *belg*-2018 (b). Note that the x and y-axes ranges are different for both panels; and the colors (e.g., red dots and line—*Belete* and yellow dots and line—*Suthalo*) represent a cultivar in different farms.

The authors apologize for any inconvenience caused to the readers by these changes. The manuscript will be updated and the original will remain online on the article webpage, with a reference to this correction.
