

Figure S1. Basic characterization of BMP^{Plt-/-} mice. **(A)** Protein expression of BMP-4 in platelets from BMP^{Plt+/+}/LDLr^{-/-} mice. **(B)** Bleeding times of control (BMP^{Plt+/+}) and BMP^{Plt-/-} mice. **(C)** Peripheral blood count between BMP^{Plt+/+} (control) and BMP^{Plt-/-} mice. $n = 3$ independent experiments for **(B)**. ** $p \leq 0.01$; n.s., not significant.
