

Supplementary Materials

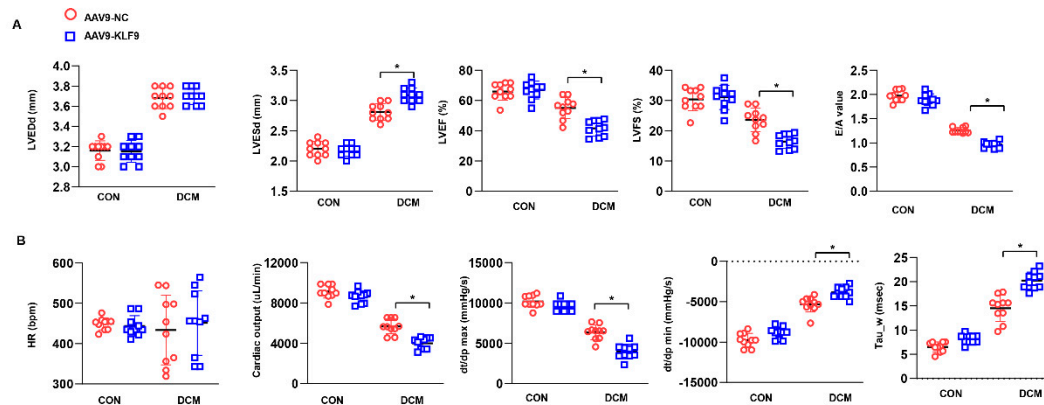

Figure S1. KLF9 overexpression deteriorated cardiac dysfunction in DCM. (A) Echocardiographic data in DCM mice (n=10). (B) Pressure-volume loop data in DCM mice (n=10). *P<0.05.

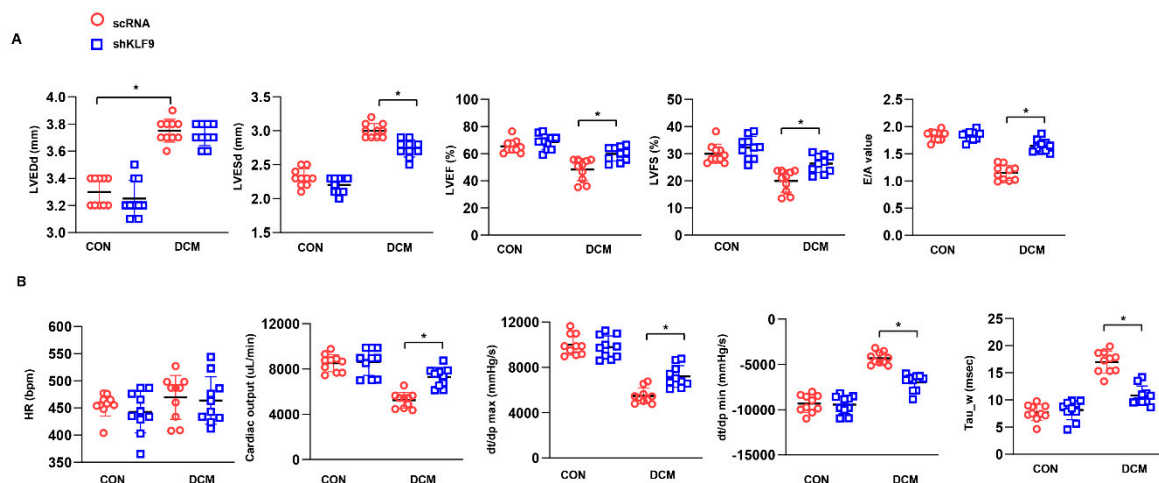

Figure S2. KLF9 knockdown ameliorated cardiac dysfunction in DCM (A) Echocardiographic data in DCM mice (n=10). (B) Pressure-volume loop data in DCM mice (n=10). *P<0.05.

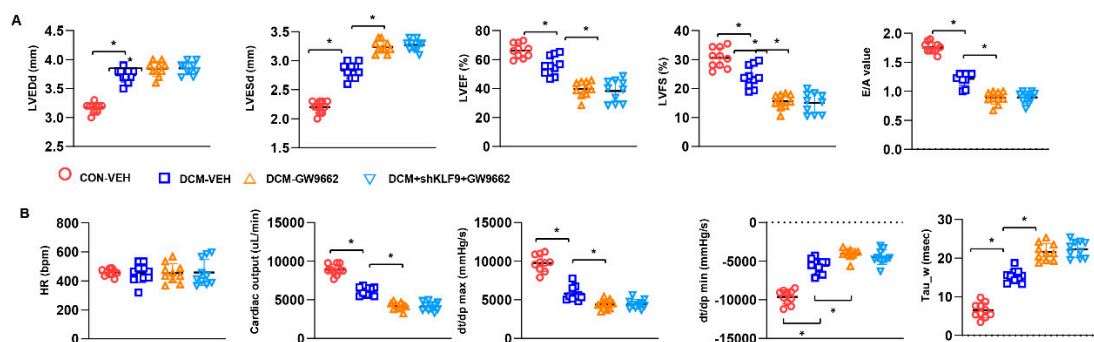

Figure S3. Cardiac dysfunction persists in PPAR γ inhibition mice with KLF9 knockdown. (A) Echocardiographic data in DCM mice (n=10). (B) Pressure-volume loop data in DCM mice (n=10). *P<0.05.
