

Supplementary materials

Table S1. Area of different urban green space typologies in Birjand city.

Typology of urban greenery	Area (ha)
Public parks (No. 87)	80.62
Street green space (boulevard, square, roadside)	92
Planted forest	61
Green belt	19.38
Total greenery under the supervision of Municipality	253
Private gardens	186.65
Per Capita Public Urban Parks (m ² /capita)	4.33
Per Capita Urban Green Spaces (m ² /capita)	13.75

Source: Official website of the Organization of Birjand's Urban Parks & Green Spaces (<http://birjandpark.ir/>).

Table S2. Number and area of urban parks by districts.

	Urban parks								Total Area (ha)
	Mini Parks (less than 0.5 ha)		Neighborhood Parks (0.5 – 2 ha)		District Parks (2-4 ha)		City Parks (4-8 ha)		
	N	Area (ha)	N	Area (ha)	N	Area (ha)	N	Area (ha)	
District 1	10	2.24	5	3.42	5	12.14	2	15.21	33
District 2	42	9.65	18	17.95	4	13.22	1	6.8	47.62
Total	52	11.89	23	21.37	9	25.36	3	22	80.62

Survey: Use of green spaces during the pandemic by COVID-19 in Birjand

The present questionnaire has been designed with the aim of studying the relationship between Birjand citizens and urban green space in the Corona period. Researchers aim to compare the use of urban green spaces (public and private green spaces) by Birjand citizens in the two periods before and after Corona. In this study, urban public green space means all green spaces that are managed by the municipality or other government agencies (natural resources, cultural heritage) like urban parks and gardens that all people can use. Private green spaces refer to privately owned gardens and yards at level of private houses and condominiums.

The questionnaire should take approximately 15 minutes to complete.

The questionnaire is entirely anonymous. Personal data are requested for statistical purposes only, and the reporting of results will be based solely on aggregated data.

Thank you in advance for your cooperation.

I have read the handling data management information:

- ☐ Yes

Section 1

Characteristics of the neighborhood and of the usage of green spaces

- 1 Name (or postcode) of your district/neighborhood?

.....

- 2 In which kind of house do you live?

- ☐ Flat in a condominium
☐ Single house
☐ Villa

- 3 Is there any PUBLIC green space in your neighborhood (within 300 m from home)? (If you select Other, please, specify)

- ☐ A tree-lined street
☐ An urban park
☐ A public urban garden
☐ A square with trees
☐ Neighborhood green space
☐ Playground
☐ River banks
☐ Green area outside the town (e.g. forest)
☐ Beach
☐ Lake
☐ Other
☐ None

Section 2A.

For the next questions, you can refer to such public green space or to another one; refer to your habits before the pandemic

4 How often (**in general**) did you use to visit a **public urban green space before the pandemic**?

- ☐ Every day
- ☐ More than once a week
- ☐ Several times a month
- ☐ Once a month
- ☐ Less than once a month
- ☐ Never (=> Q9)

5 How far did you use to travel to reach such **public urban green space before the pandemic**?

- ☐ Less than 300 m
- ☐ Between 300 and 500 m
- ☐ More than 500 m
- ☐ More than 1 km

6 What kind of green space is it? (If you select Other, please, specify)

- ☐ A tree-lined street
- ☐ An urban park
- ☐ A periurban forest
- ☐ A public garden
- ☐ A square with trees
- ☐ Neighborhood green pocket
- ☐ Playground
- ☐ River banks
- ☐ Beach
- ☐ Lake
- ☐ Other:

7 For which reason(s) did you usually visit the **public urban green space before the pandemic**? (max. 2 answers, the most important)

- ☐ Meeting people
- ☐ Physical exercise (e.g. running, sport)
- ☐ Walking
- ☐ Taking the kids outdoor
- ☐ Reading
- ☐ Observing nature
- ☐ Taking the dog out
- ☐ Relaxing
- ☐ Passing through while going somewhere else
- ☐ Staying outdoors
- ☐ Gardening
- ☐ Other:

8 What did you usually appreciated most in the **public urban green space before the pandemic**?

- ☐ Physical health benefits (weight, cardiovascular)
- ☐ Reduction of stress

- ☐ Reduction anxiety
- ☐ Reduction of depression
- ☐ Connection to nature
- ☐ Connection to spiritual side
- ☐ Appreciation of the environment
- ☐ Family togetherness
- ☐ Provision of clean air
- ☐ Sense of community

Section 2B

Use of private garden/courtyard/backyard in general, before the pandemic

- 9 Does your house/building include an accessible private garden/courtyard/backyard?
- ☐ Yes
 - ☐ No (=>Section 3)
- 10 How big is the private garden/courtyard/backyard?
- ☐ Less than 30 m²
 - ☐ Between 30 and 100 m²
 - ☐ More than 100 m²
- 11 Is it shared with other people?
- ☐ Yes, with the family
 - ☐ Yes, with the neighbors
 - ☐ No
- 12 How often do you spend time (meaningful for activities) in the private garden/courtyard/backyard?
- ☐ Everyday
 - ☐ More than once a week
 - ☐ Several times a month
 - ☐ Once a month
 - ☐ Less than once a month
 - ☐ Never
- 13 For which reason(s) do you usually spend time in the private garden/courtyard/backyard? (max. 2 answers, the most important)
- ☐ Meeting people
 - ☐ Physical exercise (e.g. running, sport)
 - ☐ Walking
 - ☐ Taking the kids outdoor
 - ☐ Reading
 - ☐ Observing nature
 - ☐ Taking the dog out
 - ☐ Relaxing
 - ☐ Passing through while going somewhere else
 - ☐ Staying outdoors
 - ☐ Gardening
 - ☐ Other:
- 14 What do you usually appreciate most in the private garden/courtyard/backyard?

- ☐ Physical health benefits (weight, cardiovascular)
- ☐ Reduction of stress
- ☐ Reduction anxiety
- ☐ Reduction in depression
- ☐ Connection to nature
- ☐ Connection to spiritual side
- ☐ Appreciation of the environment
- ☐ Family togetherness
- ☐ Provision of clean air
- ☐ Sense of community

Section 3A

Vicinity				

Section 3B

Use and perception of private green spaces during the pandemic

20 How many times have you been in a **private garden/courtyard/backyard during the pandemic?**

- ☐ Everyday
- ☐ More than once a week
- ☐ Several times a month
- ☐ Once a month
- ☐ Less than once a month
- ☐ Never (=> Q25)

21 For which reason(s) did you visit the **private garden/courtyard/backyard during the pandemic?** (max. 2 answers, the most important)

- ☐ Meeting people
- ☐ Physical exercise (e.g. running, sport)
- ☐ Walking
- ☐ Taking the kids outdoor
- ☐ Reading
- ☐ Observing nature
- ☐ Taking the dog out
- ☐ Relaxing
- ☐ Passing through while going somewhere else
- ☐ Staying outdoors
- ☐ Gardening
- ☐ Other:

22 What did you enjoy most in the **private garden/courtyard/backyard during the pandemic?**

- ☐ Physical health benefits (weight, cardiovascular)
- ☐ Reduction of stress
- ☐ Reduction anxiety
- ☐ Reduction in depression
- ☐ Connection to nature
- ☐ Connection to spiritual side
- ☐ Appreciation of the environment
- ☐ Family togetherness
- ☐ Provision of clean air
- ☐ Sense of community

23 What feeling did you notice staying in the **private garden/courtyard/backyard with respect to staying home during the pandemic?**

	Much less	Less	No change	More	Much more
Happy					
Pleased					
Excited (ecstatic)					
Physically energetic					
Anxious					
Nervous					
Tense					
Frightened					
Irritated					
Upset					
Depressed					
Blue					

Additional notes/explanations:

.....

24 Indicate the extent to which you **appreciated** the following items in the **private garden/courtyard/backyard during the pandemic**

	Not at all	Little	Appreciated	Very much
Quiet/freedom from noise				
Privacy				

Socialization				
Safety from contagion				
Security from bad people				
Cleanness
