

**Table S2.** List of psyllid species occasionally found in the carrot and potato fields surveyed in 2016.

Crop	Location	Sampling method	Psyllid species	Date of sampling	Total number of insects
Carrot	Gomezserracín	Sweep net	<i>B. tremblayi</i>	Early July	1
			<i>B. tremblayi</i>	Mid-July	1
		Tile trap	<i>B. tremblayi</i>	Mid-May	1
			<i>B. tremblayi</i>	Mid-June	1
Carrot	Íscar	Sweep net	<i>B. tremblayi</i>	Late July	1
			<i>B. tremblayi</i>	Early September	1
		Tile trap	<i>B. tremblayi</i>	Late May	1
			<i>B. tremblayi</i>	Early August	1
Carrot	Villena	Sweep net	<i>Trioza urticae</i>	Mid-May	2
			<i>Trioza remota</i>	Mid-October	1
		Tile trap	<i>B. tremblayi</i>	Early June	1
			<i>B. tremblayi</i>	Late May	1
Potato	Aldearrubia	Tile trap	<i>T. urticae</i>	Early June	1
			<i>T. urticae</i>	Mid-June	1
