

Table S6. EHI_180390 gene expression in *E. histolytica* strains.

Strain	Fold change
UG10	1
UG10spAIG1	6.95±0.9
HM-1	12.7±1.2

The lowest expression of the *EhAIG1* gene was in the UG10 strain, and a value of 1 was assigned. Fold Change for the other strains was assigned with respect to the UG10 strain.
