

Table S1. Chemical composition of Efico alpha 717 diets according to the producer's specification (BioMar, Denmark).

Content	Pellet fraction 3.0 mm	Pellet fraction 4.5 mm
Crude protein, %	39-42	39-42
Lipids, %	21-24	21-24
Carbohydrates, %	19-22	19-22
Alimentary fiber, %	4-5.9	4-5.9
Ash substances, %	4-7	4-7
Total phosphorus, %	0.8	0.8
Energy for growth, mJ/kg	21-24	21-24
Digestible energy, mJ/kg	18.3	18.3

Table S2. Lipid (% dry weight) and fatty acid (wt% total fatty acids) composition of Efico alpha 717 feed pellets.

Size of pellets	3.0 mm	4.5 mm
Lipid content		
Total lipids	23.28±0.37	24.03±0.53
Phospholipids	0.00±0.00	0.16±0.24
Triacylglycerols	18.68±0.45	18.55±0.94
Cholesterol esters	0.00±0.00	0.00±0.00
Cholesterol	4.60±0.40	5.32±0.63
Fatty acids		
12:00	0.05±0.01	0.04±0.02
