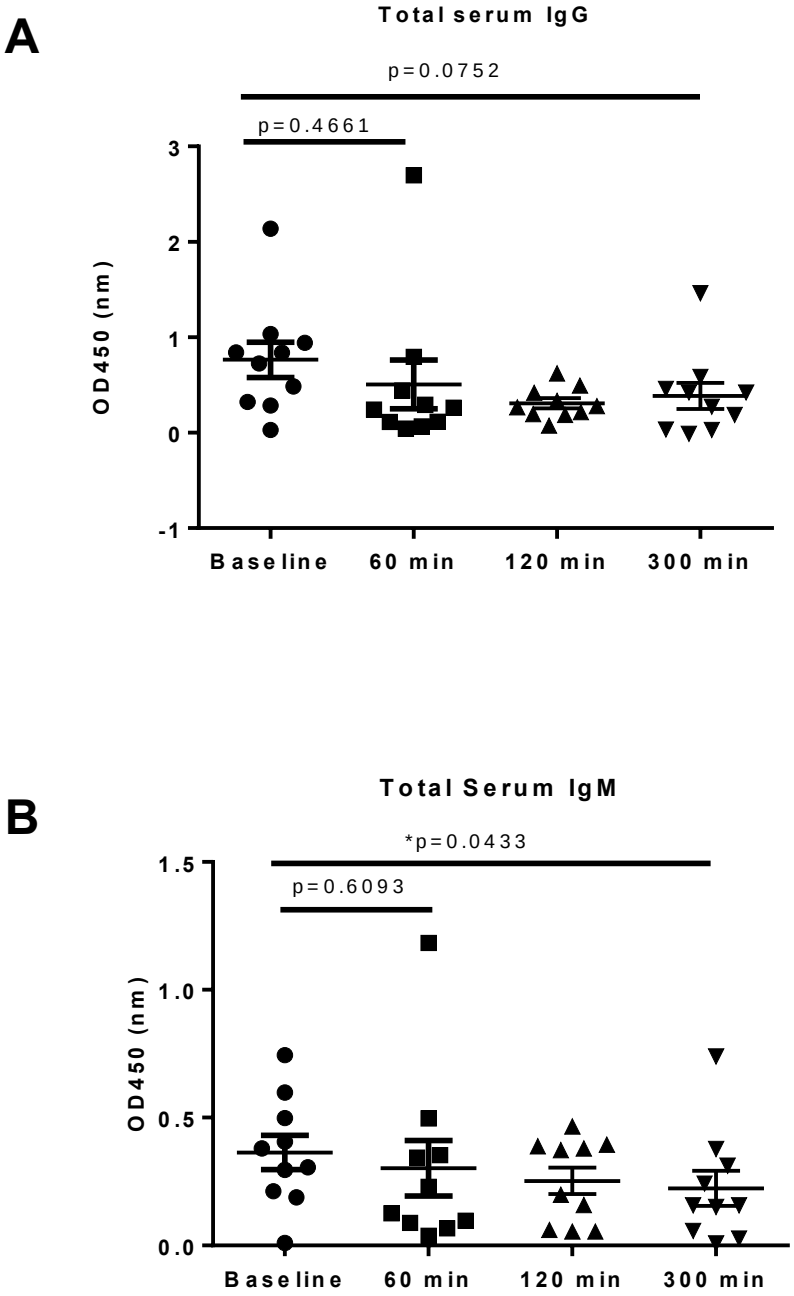

Figure S1. Changes in total serum IgG and IgM post CABG surgery (n=10). A) Total IgG did not change from baseline to 300 minutes B) IgM decreased from baseline to 300 minutes. Values are mean ± SEM.

TableS1. Inclusion and exclusion criteria for the patients undergoing coronary artery bypass grafting in the population study. CABG, coronary artery bypass grafting.

Inclusion Criteria	Patients referred for primary elective CABG surgery at Hammersmith Hospital were considered for inclusion
Exclusion Criteria	-Paediatric patients -Emergency surgeries (within 24 hours) -Combined CABG and valve replacement -Re-do operations with re-sternotomy

-Poor left ventricular function (ejection fraction <30% on echocardiogram) -Recent cerebrovascular accident within 3 months pre-operatively/> 75% carotid artery obstruction on ultrasound -Pre-existing renal impairment (serum creatinine>177μmol/L) -Pre-existing coagulopathy -Pre-existing liver dysfunction -Recent (within 5 days) use of antiplatelet agents (aspirin,clopidrogel)

Table S2. The top 10 protein identifications from each patient using LC-MS/MS. ApoB-100 peptides were detected in all three patients at seven-fold higher levels than the next most abundant protein. Unless stated otherwise, origin of protein was identified as Homo sapiens.

Patient 1		**Patient 2**		**Patient 3**	
Proteins identified	*Counts*	*Proteins identified*	*Counts*	*Proteins identified*	*Counts*
Apolipoprotein B-100	363	Apolipoprotein B-100	429	Apolipoprotein B-100	354
Cationic trypsin (Bos taurus)	14	Apolipoprotein(a)	47	Cationic trypsin (Bos taurus)	13
Apolipoprotein(a)	7	Fibrinogen alpha chain	32	Apolipoprotein(a)	5
Complement C4-A	4	Fibronectin	29	Serum albumin (Bos taurus)	5
Ig mu chain C region	3	Fibrinogen beta chain	22	Ig lambda-6 chain C region	2
Serum albumin (Bos taurus)	2	Fibrinogen gamma chain	21	Fibrinogen alpha chain	1
Ig lambda-6 chain C region	2	von Willebrand factor	13	Complement C4-A	1
Anionic trypsin (Rattus norvegicus)	1	Serum albumin (Bos taurus)	11	Anionic trypsin (Rattus norvegicus)	1
Ig gamma 4 chain C region	1	Cationic trypsin (Bos taurus)	10	Ig gamma 4 chain C region	1
Ig lambda chain V region	1	Ig mu chain C region	8	Hornerin	1
