

Supplementary material

Table S1. Completed COVID-19 vaccination coverage in countries of the world (April 2022).
Data from Our World in Data (<https://ourworldindata.org/covid-vaccinations>)

Table S2. Critical vaccination coverage (V_c) required to establish herd immunity against SARS-CoV-2 with reproductive numbers (R_0) from 1.1 to 10 by vaccination effectiveness

Table S3. Critical vaccination coverage (V_c) required to establish herd immunity against SARS-CoV-2 with different basic reproductive numbers (R_0) by COVID-19 vaccination effectiveness, with 10% of individuals protected and 9.8% infections among vaccinated individuals

Table S4. Critical vaccination coverage (V_c) required to establish herd immunity against SARS-CoV-2 with different basic reproductive numbers (R_0) by vaccine effectiveness, with 20% of individuals protected and 9.8% infections among vaccinated individuals

Table S1. Completed COVID-19 vaccination coverage in countries of the world (April 2022).
Data from Our World in Data (<https://ourworldindata.org/covid-vaccinations>)

| Country | % |
|--------------------------|------|
| Afghanistan | 11.4 |
| Albania | 42.5 |
| Algeria | 13.7 |
| Andorra | 69.0 |
| Angola | 17.7 |
| Antigua and Barbuda | 62.5 |
| Argentina | 81.2 |
