

Coating of Magnetite Nanoparticles with Fucoidan to Enhance Magnetic Hyperthermia Efficiency

Joana Gonçalves ¹, Cláudia Nunes ^{1,*}, Liliana Ferreira ^{2,3}, Maria M. Cruz ³, Helena Oliveira ⁴, Verónica Bastos ⁴, Álvaro Mayoral ^{5,6,7}, Qing Zhang ⁷, Paula Ferreira ^{1,*}

Supplementary Materials:

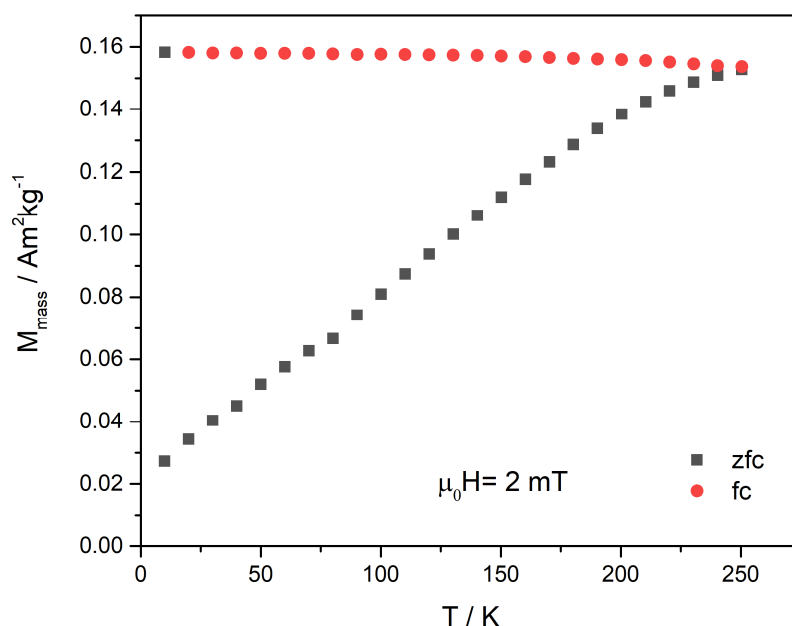

Figure S1: Temperature dependence of the magnetization for MF-IS sample measured at 2 mT.

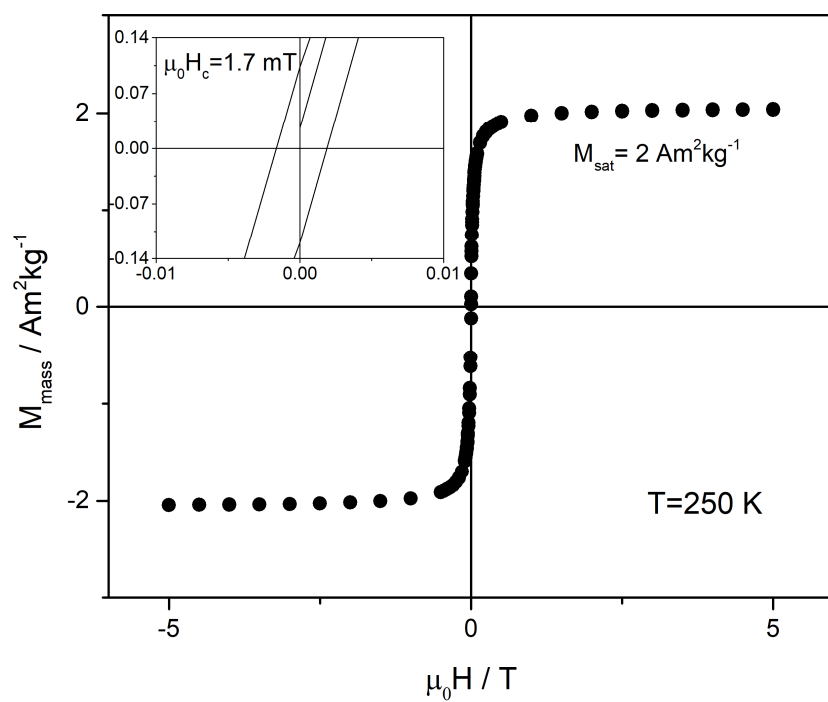

Figure S2: Hysteresis curve at 250 K for MF-IS sample. The inset shows the low field region of the hysteresis curves.

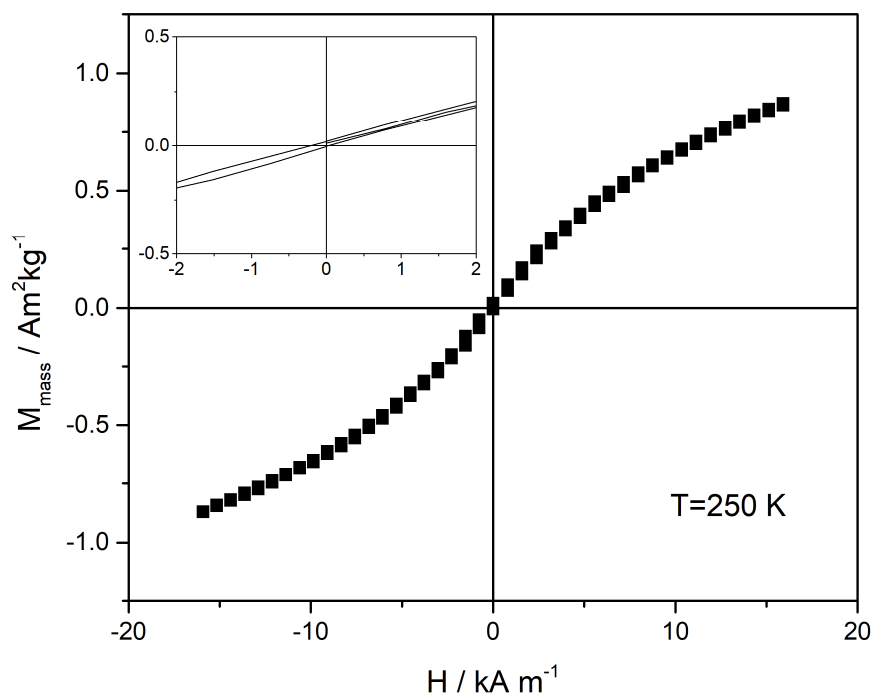

Figure S3: Minor hysteresis curves at 250 K for MF-IS sample.
