

Figure S1: Representative agarose gel of PCR products for antibiotic resistance Tet(O) gene identification from *Campylobacter* strains isolated from meat and skin chicken. Lanes: 1: 100 bp molecular marker; 2-5: Tet(O) in *Campylobacter* strains isolated from chicken meat samples; 6-11: Tet(O) in *Campylobacter* strains isolated from chicken skin samples; 12: *C. coli* (ATCC 33559); 13: *C. jejuni* (ATCC 33560); 14: blank sample; 15: 100 bp molecular marker.
