

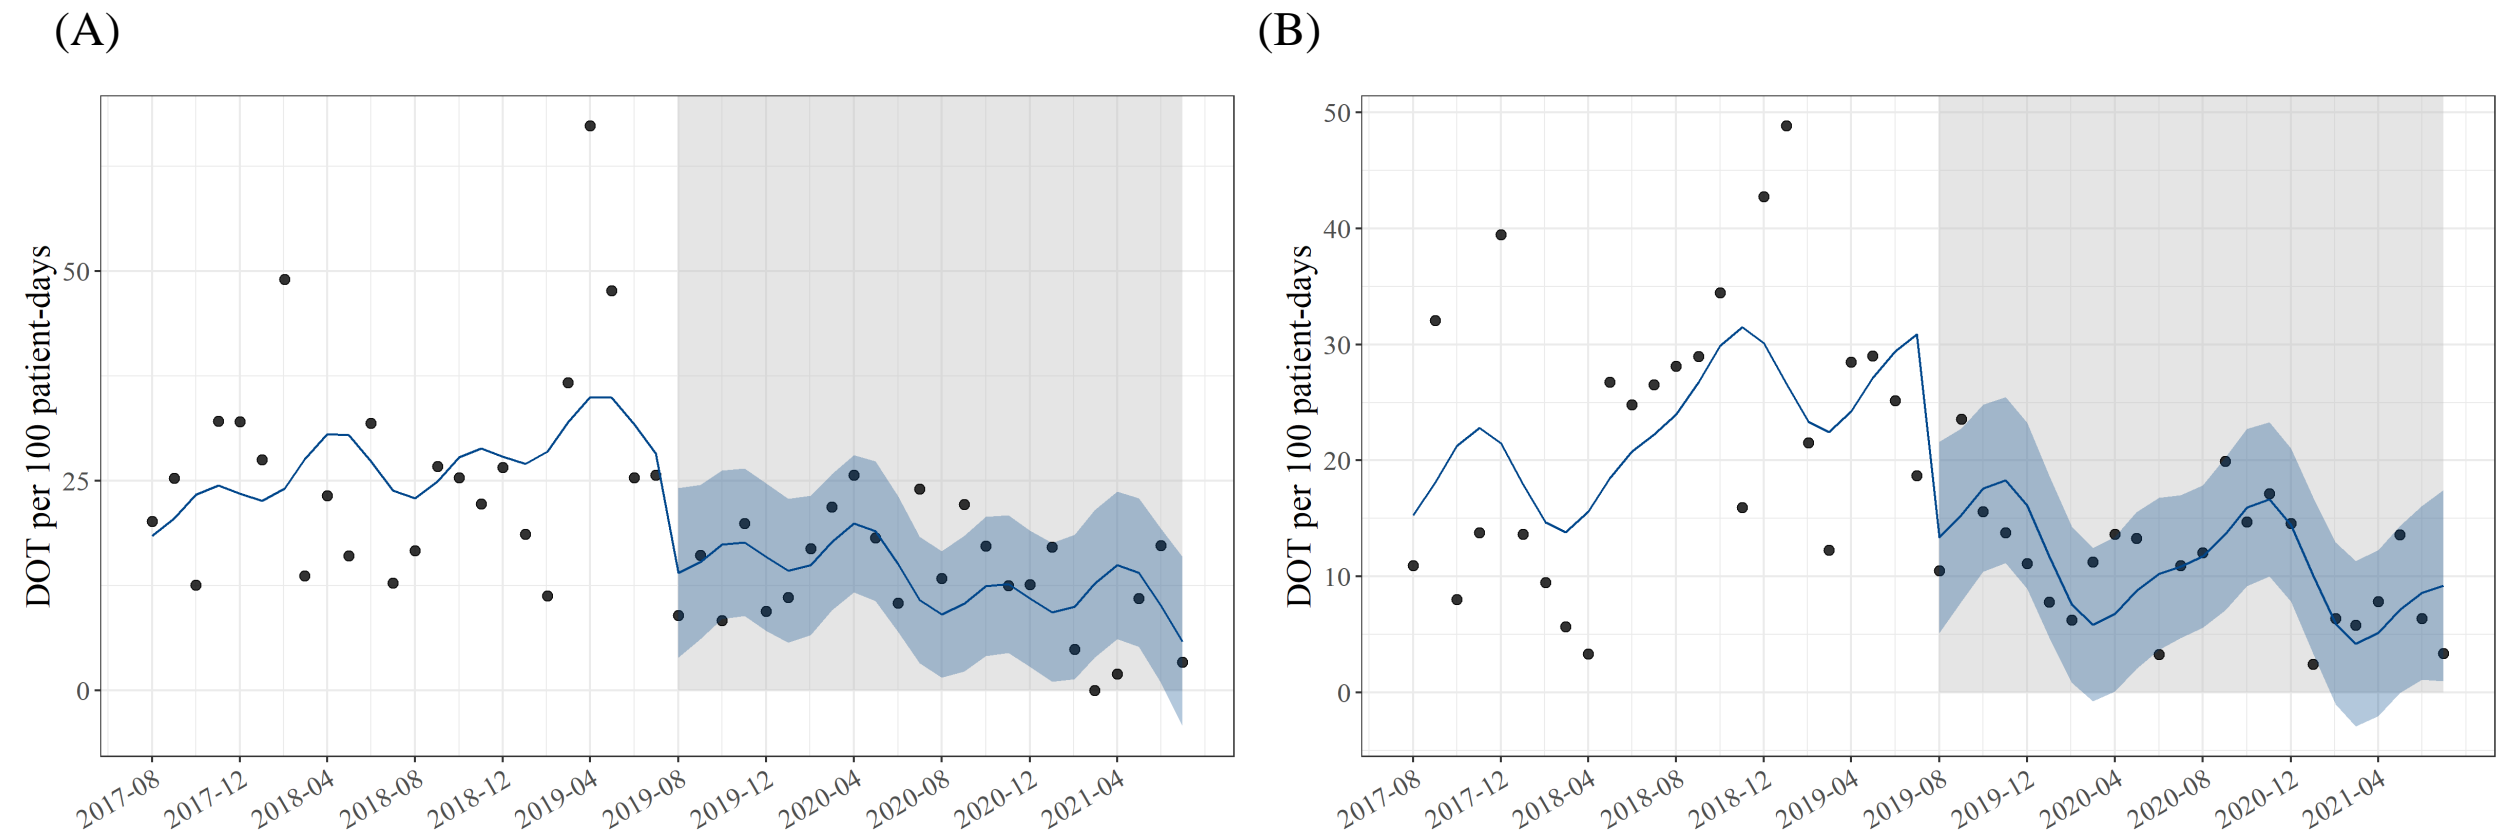

Figure S2. Sensitivity analysis for DOT of carbapenem and tazobactam/piperacillin.

A, DOT of carbapenem; B, DOT of tazobactam/piperacillin.

The gray area indicates the start of pharmacist-driven PAF. The dots indicate the measured values for each month, and the blue line indicates the regression line.

The light blue band indicates 95% confidence interval.

Abbreviation: DOT, days of therapy; PAF, prospective audit with intervention and feedback
