

Supplementary Figure S1. SCC*mec* element type of MRSA CCARM 3807 and MRSA CCARM 3820. The presence of the SCC*mec* related genes were confirmed using PCR. The presence of *ccrA2-ccrB2* and *mecA* confirm the presence of the SCC*mec* element and are indicated by the arrows (A). Selective existence of *mecA-IS1272* or *mecA-mecI* was checked to identify the type of SCC*mec* element. L: DNA size marker (kilobase); 3807: MRSA CCARM 3807; 3820: MRSA CCARM 3820.
