Received: 19 December 2019; Accepted: 19 December 2019; Published: 6 March 2020

The authors wish to make the following correction to this paper [1]:

The authors regret that Equation (1) was incorrect. The correct equation is:

$$L_M(t) = \begin{cases} L_H + (L_L - L_H) \frac{\log_{10} \frac{M_P(t)}{M_H}}{\log_{10} \frac{M_L}{M_H}}; & \text{if } M_L \neq M_H \\ \frac{(L_L + L_H)}{2}; & \text{otherwise} \end{cases} \quad (1)$$

The authors would like to apologize for any inconvenience caused to the readers by this change. The change does not affect the scientific results. The manuscript will be updated and the original will remain online on the article's webpage.
