

## Elucidating the Structural Impacts of Protein InDels – Supplementary Material

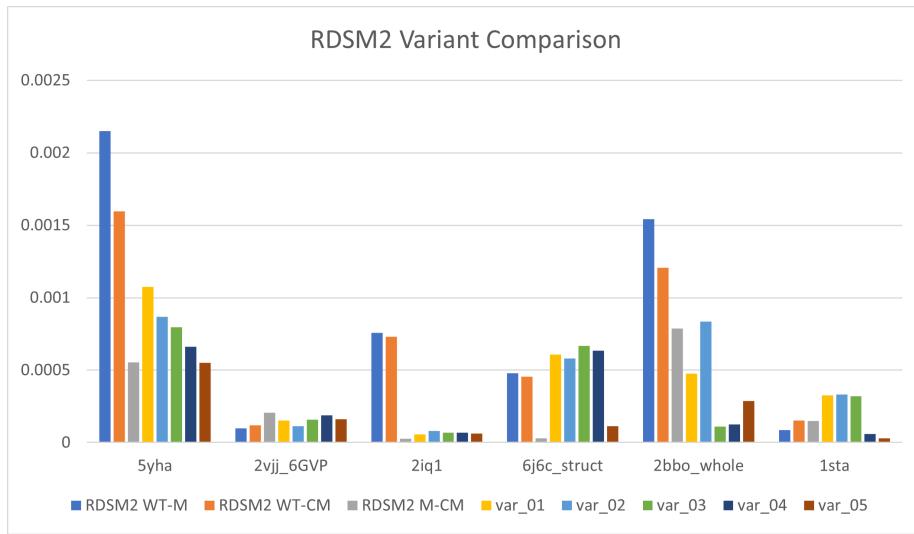

Figure S1: Comparison of the RDSM2 scores of both our original method, and 5 additional computationally generated mutants compared with our computationally generated mutant.

Table S1: RDSM2, RDSM3, and TLCCS between each of the computationally generated variants and their associated computationally generated mutant.

| Variant           | RDSM2    | RDSM3    | TLCCS |
|-------------------|----------|----------|-------|
| 5yha var01        | 0.0011   | 0.00078  | 0.24  |
