*LSD: least significantly different at $p \leq 0.05$ according to the posthoc test. Each value is presented as mean of triplicate treatment

Supplementary Table S3: Phytochemical constituents reported in different parts of *Moringa oleifera*.

Plant part	Bioactive compound	Biological activity	Chemical structure	Reference(s)
Leaves	Niazirin	Hypotensive activity		[1,2–5]
	Niazirinin			
	4-(4'-O-acetyl- α -Lrhamnopyranosyloxy)benzyl isothiocyanate	Antibacterial, Antitumor, Anticancer, Antiulcer, Antispasmodic, Antihyperthyroidic, Estrogenic, Hypoglycaemic, Hypocholesterolemic, Purgative and Abortifacient properties		
	Niaziminin A and B	Antitumor and Hypotensive activity		
	Niazimicin	Antispasmodic, Anticancer, Antibacterial, Antitumour		
Bark	4-(α -Lrhamnopyranosyloxy)benzyl glucosinolate	Hypotensive, Anticancer, Antibacterial, Antifungal activity		[1]
Stem	β -sitosterol	Anticancer and hypotensive activity		[1,4,6,7]
	4-(α -Lrhamnopyranosyloxy)benzyl glucosinolate	Hypotensive, Anticancer, Antibacterial and Antifungal activity		
Roots	Moringine	Cardiac stimulant, hypolipidimic bronchodilator activity		

	Pterygospermin	Antimicrobial, antibacterial and Anti-fungal properties		
Flower	Quercetin	Antioxidant and Hepatoprotective activity		
	Isoquercitin	Antioxidant activity		
	Kaempferol	Antioxidant activity		
	Kaempferitrin	Antioxidant, Antimicrobial and Anti-inflammatory activity		[1,7]
	Ascorbic acid	Antioxidant activity		
	O-ethyl-4-(α -Lrhamnosyloxy)benzyl carbamate	Antitumor activity		
	4(α - L-rhamnosyloxy)-benzyl isothiocyanate	Antitumor, Antimicrobial, Hypotensive, Anticancer and Antibacterial activity		
Pods/Seeds	Niaziminic	Antispasmodic, Anticancer and Antitumour		[1,4]
	3-O-(6'-O-oleoyl- β -Dglucopyranosyl)- β -sitosterol	Antitumor and Anticancer property		
	β -sitosterol-3-O- β -Dglucopyranoside	Anticancer property		

Niazirin	Hypotensive activity	
β -sitosterol	Anticancer property	
Glycerol-1-(9octadecanoate)	Anticancer property	
4-(α -Lrhamnopyranosyloxy) benzyl glucosinolate	Hypotensive, Anticancer, Antibacterial and Antifungal activity	
β -carotene.	Antioxidant activity	
Vitamin A	Prevents blindness, maternal mortality, enhances lactation (breast milk); Enhances immunity to fight infections
