Table of contents

Figure S1. Guidelines for saline-sodic water quality suitability for irrigation, presented in terms of reduced infiltration.

Figure S2. Relative importance of factors determining a bad crop year

Figure S3. Farmers' perception on barriers to adaptation

Table S1. Regression of adaptation behaviors on farmer characteristics

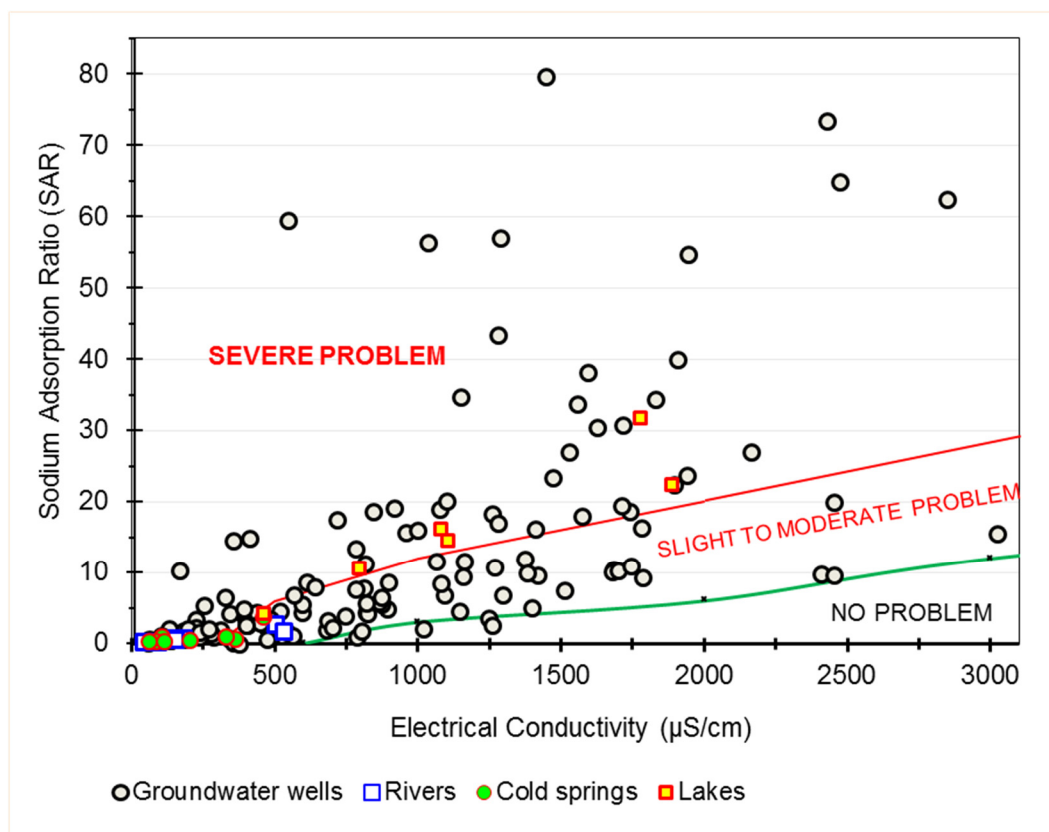

Figure S1. Guidelines for saline-sodic water quality suitability for irrigation, presented in terms of reduced infiltration.

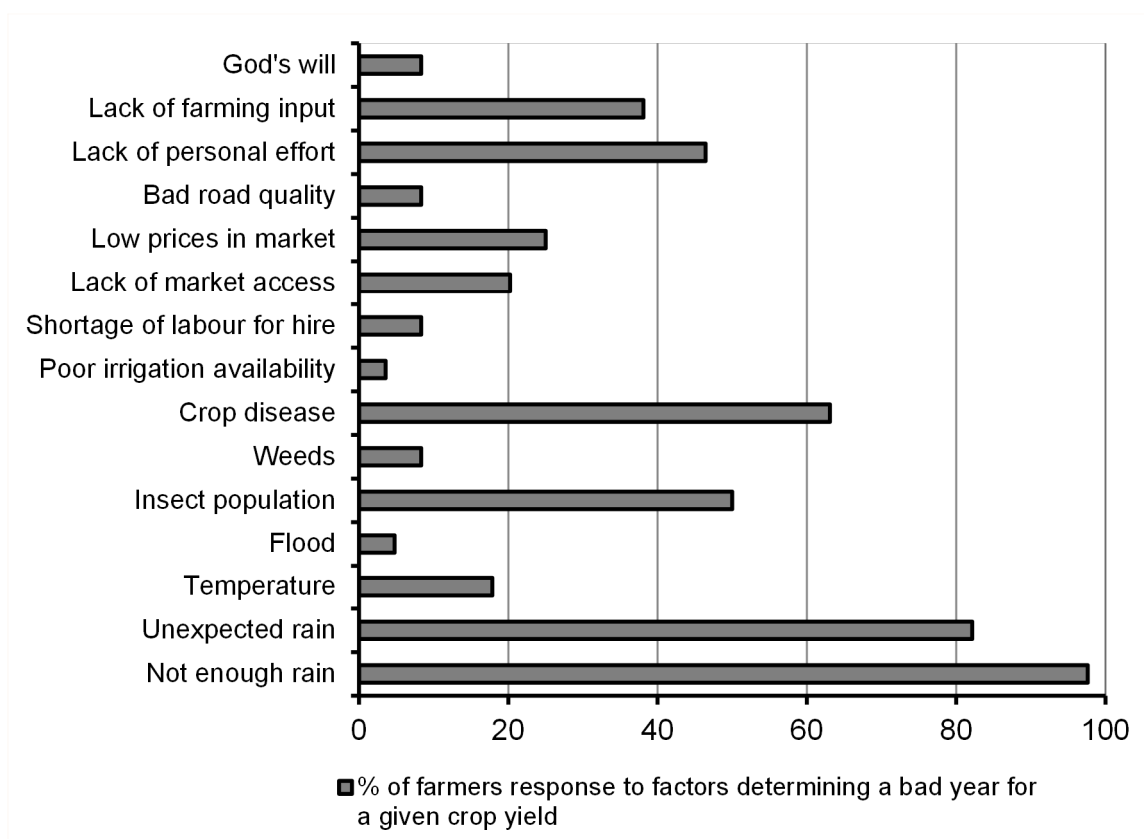

Figure S2. Relative importance of factors determining a bad crop year.

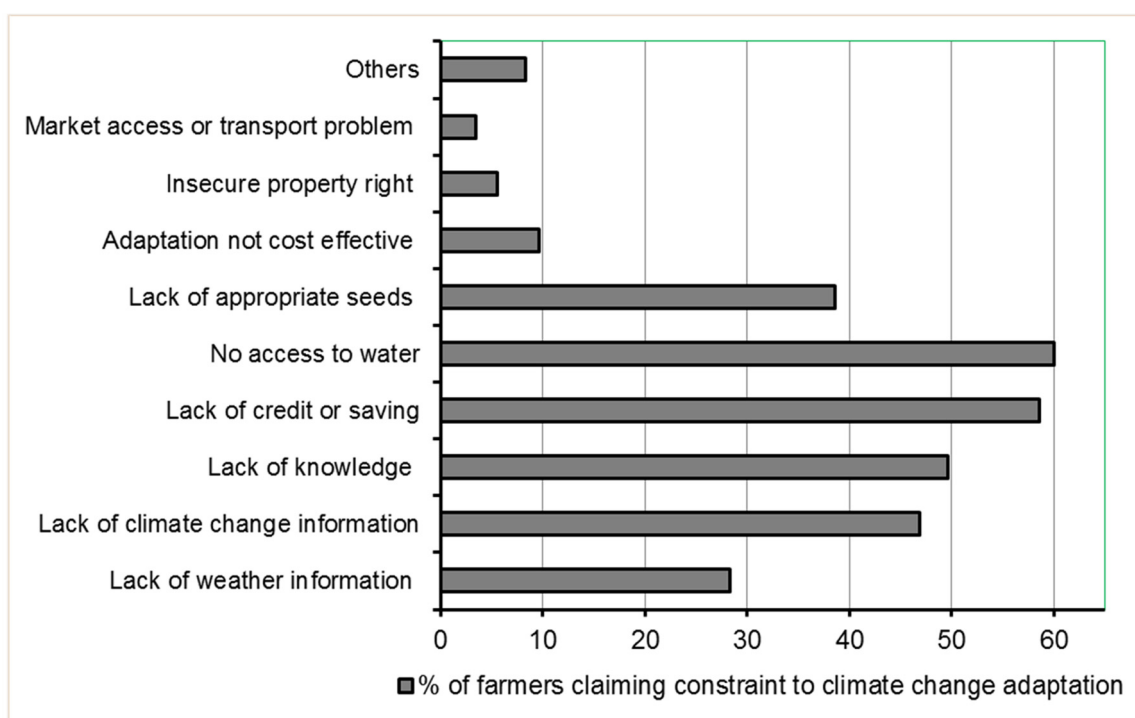

Figure S3. Farmers' perception on barriers to adaptation.
