The authors wish to make the following corrections to this paper [1]:

- On Page 9, relation (17) is given by

$$r_{ij}^+ := r_{i, \lfloor \frac{j}{M} \rfloor} \left(\left\lfloor \frac{j}{M} \right\rfloor M + 1 - j \right), \quad i = 1, \dots, d, \quad j = 1, \dots, Mn. \quad (17)$$

This should read

$$r_{ij}^+ := r_{i, \lfloor \frac{j}{M} \rfloor} M + \left(\left\lfloor \frac{j}{M} \right\rfloor - 1 \right) M + 1 - j, \quad i = 1, \dots, d, \quad j = 1, \dots, Mn. \quad (17)$$

- On Page 9, Table 5 is given by

Table 5. Ranks r_{ij} and probabilities $p(r_1, r_2)$ in Example 4.

$j \setminus i$	1	2	$p(r_1, r_2)$
1	1	2	0.2
2	2	4	0.2
3	3	1	0.2
4	4	2	0.2
5	5	5	0.2

This should read

Table 5. Ranks r_{ij} and probabilities $p(r_1, r_2)$ in Example 4.

$j \setminus i$	1	2	$p(r_1, r_2)$
1	1	3	0.2
2	2	4	0.2
3	3	1	0.2
4	4	2	0.2
5	5	5	0.2

The authors would like to apologize for any inconvenience caused to the readers by these changes, and to thank B.Sc. Lennard Foraita for pointing out the error in relation (17).

The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. The original article has been updated.

Conflicts of Interest: The authors declare no conflict of interest.
