## RefFinder comprehensive ranking

**Fig. S1.** The reference gene stability within the medial prefrontal cortex of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.

# Temporal Cortex

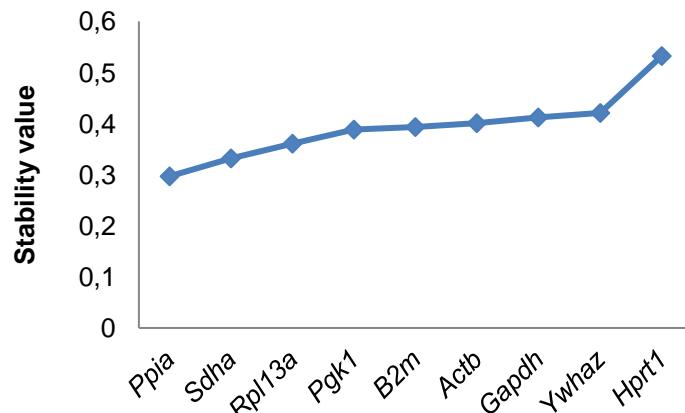

## Comparative DeltaCt

### comprehensive ranking

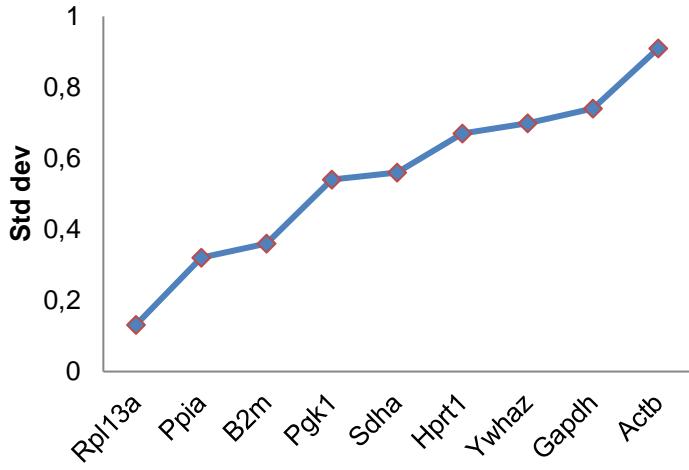

**Fig. S2.** The reference gene stability within the temporal cortex of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.

# Entorhinal Cortex

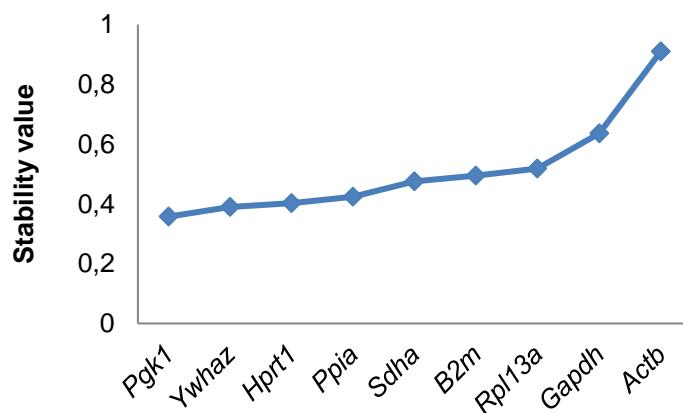

## Comparative DeltaCt

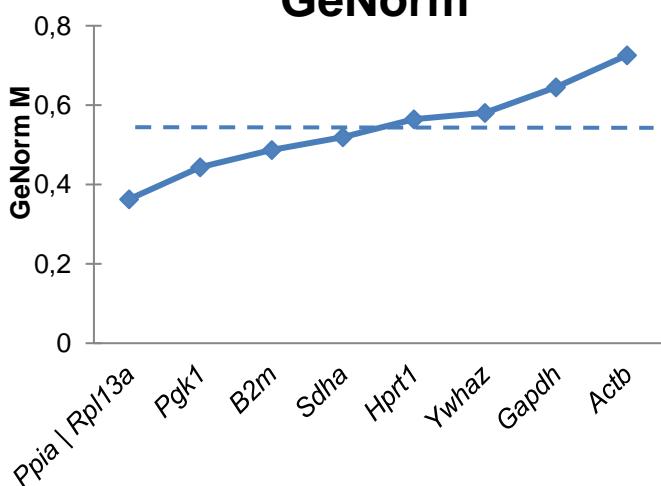

## BestKeeper

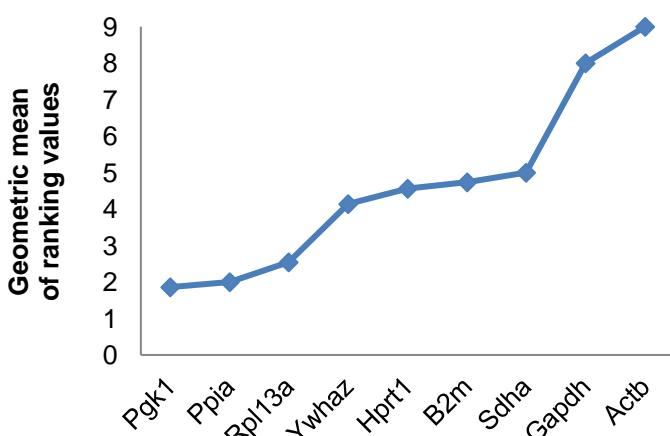

## NormFinder

## GeNorm

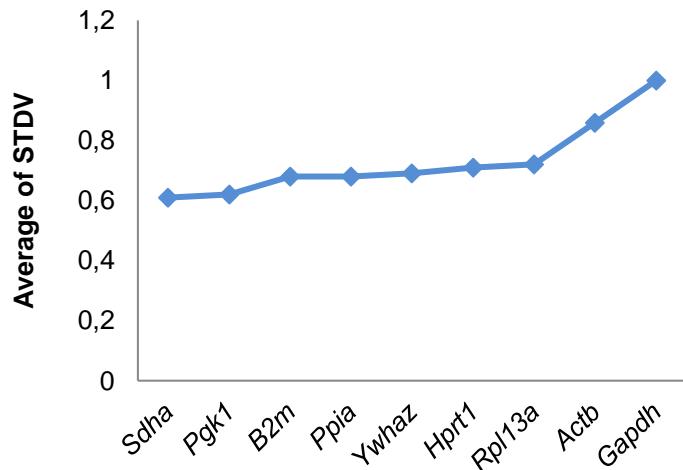

## RefFinder comprehensive ranking

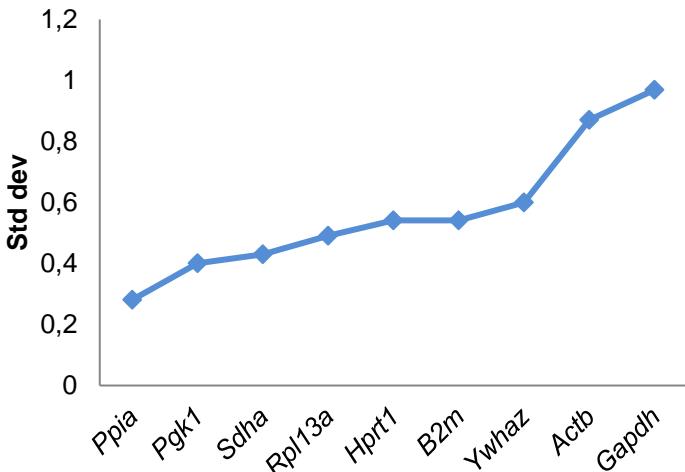

**Fig. S3.** The reference gene stability within the entorhinal cortex of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.

# Amygdala

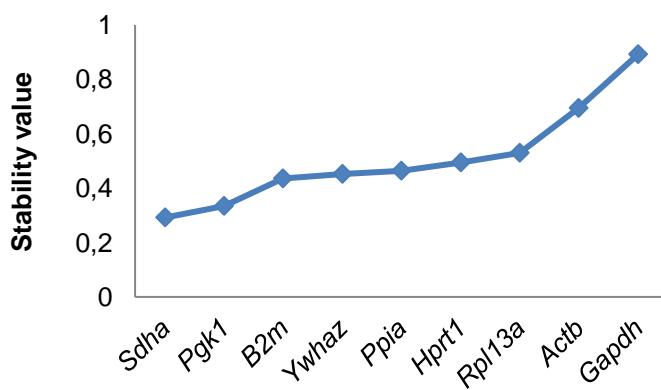

## Comparative DeltaCt

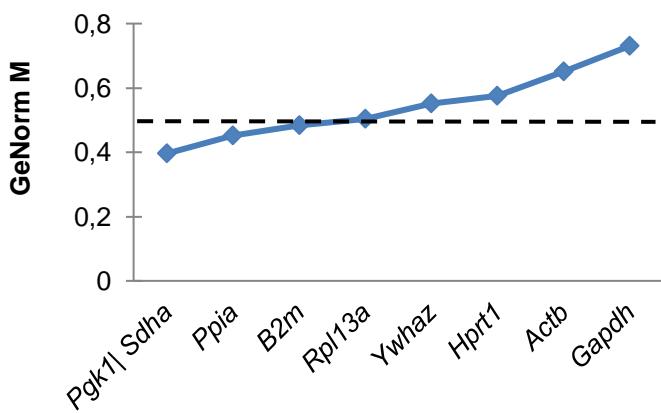

## BestKeeper

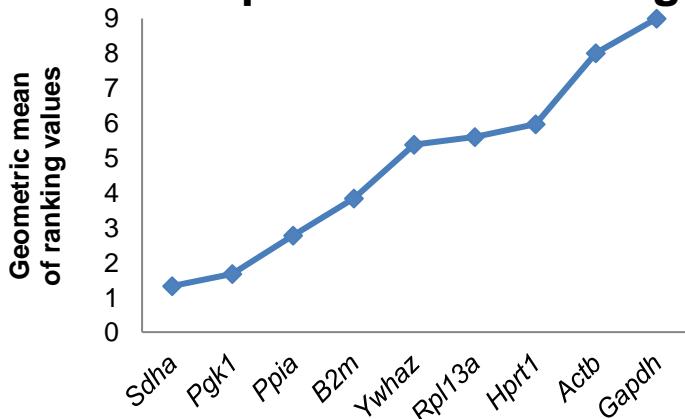

## NormFinder

## GeNorm

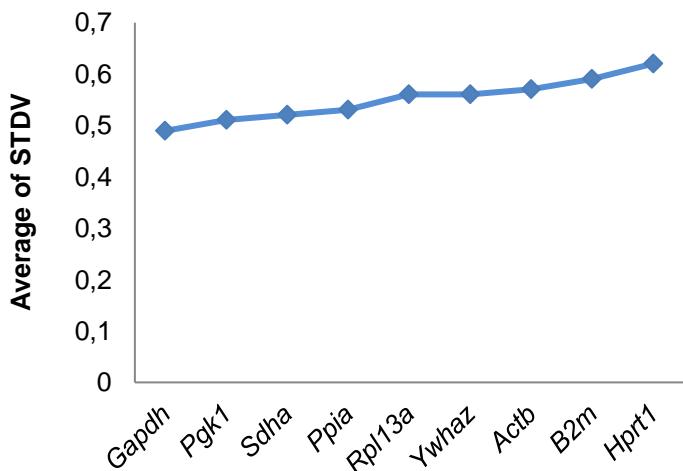

## RefFinder comprehensive ranking

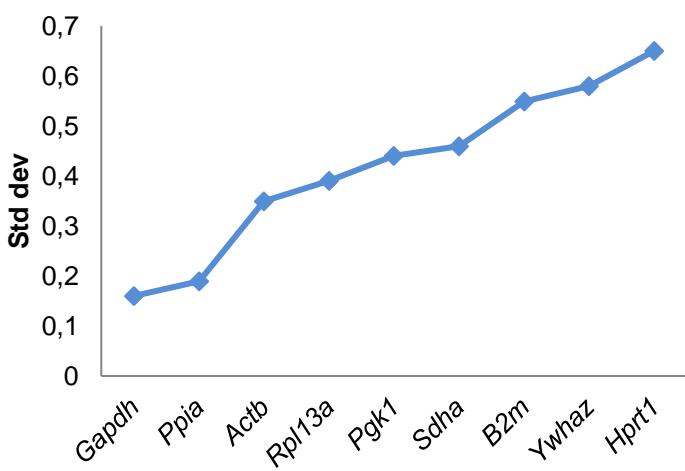

**Fig. S4.** The reference gene stability within the amygdala of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.

# Dorsal Hippocampus

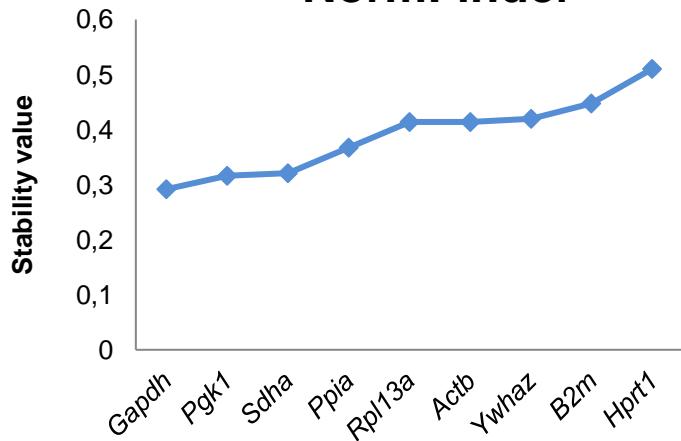

## Comparative DeltaCt

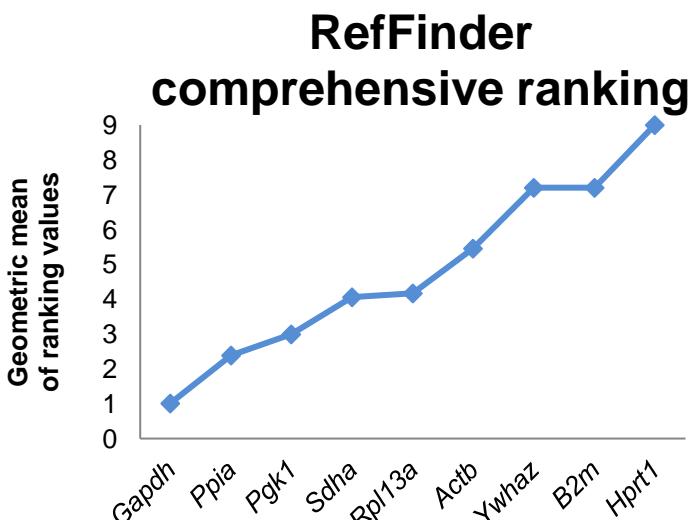

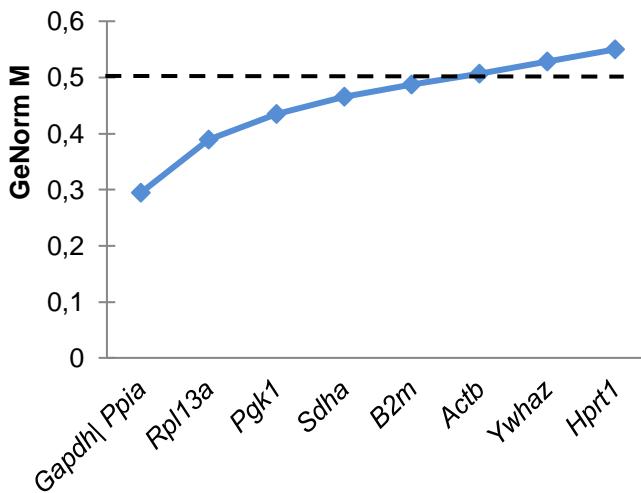

## BestKeeper

## NormFinder

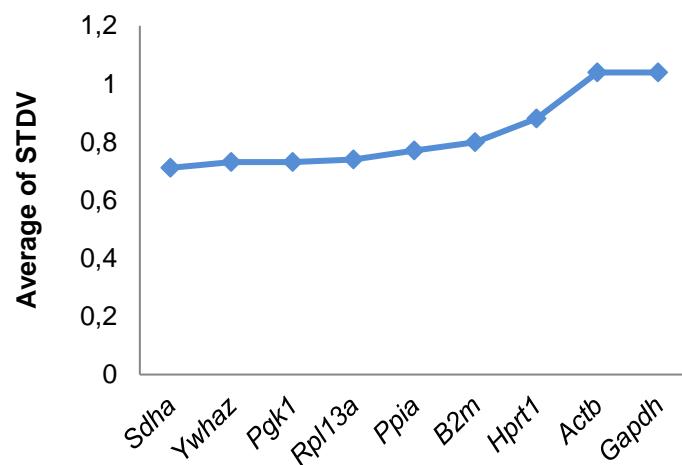

## GeNorm

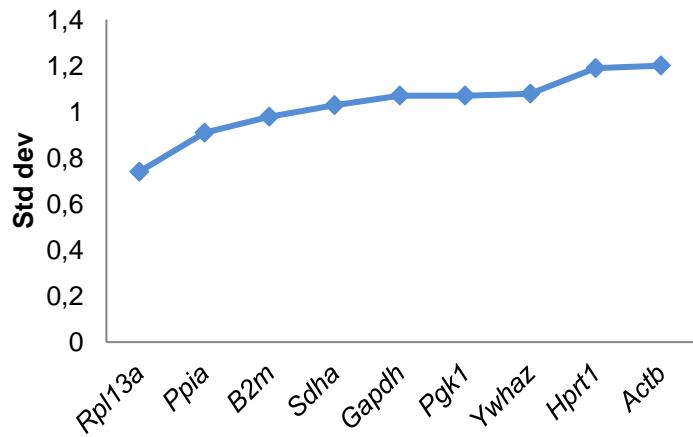

**Fig. S5.** The reference gene stability within the dorsal hippocampus of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.

# Ventral Hippocampus

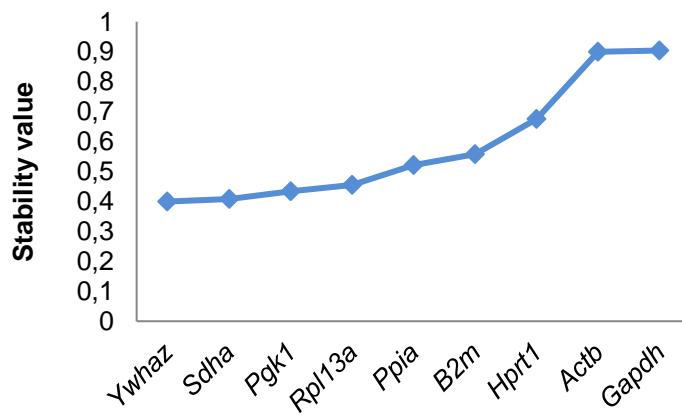

## Comparative DeltaCt

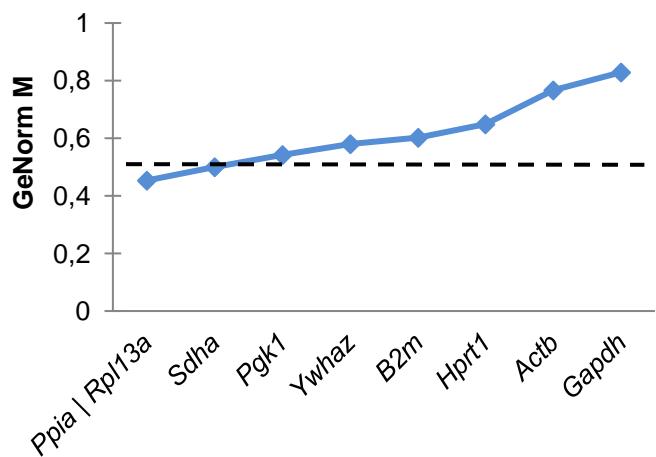

## BestKeeper

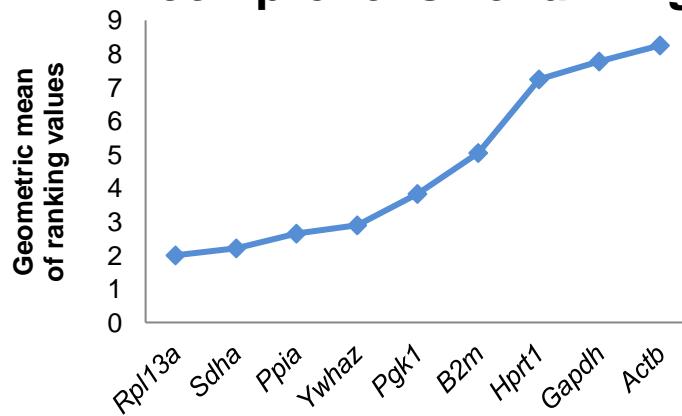

## NormFinder

## GeNorm

## RefFinder comprehensive ranking

**Fig. S6.** The reference gene stability within the ventral hippocampus of control and exposed to PTZ-induced seizures juvenile rats. Seizures was induced at P21. Gene expression stability in PTZ-treated and vehicle control animals was assessed by RefFinder online tool.
