Supplementary Information

Supplementary Tables Legends

Table 1: Bacterial targeted reviewed human proteins.

Table 2: Viral targeted reviewed human proteins.

Table 3: Top GO IDs for bacterial and viral targeted human proteins.

Table 4: Full table of features wise performance measures on bacterial and viral targeted human proteins.

Table 5: Full table of selected feature-wise performance measures of bacterial and viral targeted human proteins.

Table 6: Probability score of top 100 bacteria targeted human proteins.

Table 7: Probability score of top 100 virus targeted human proteins.

Supplementary Figures Legends

Figure S1: Venn diagram of Gene Ontology (GO) IDs of bacteria- and virus-targeted human proteins.
