

Supplementary Information

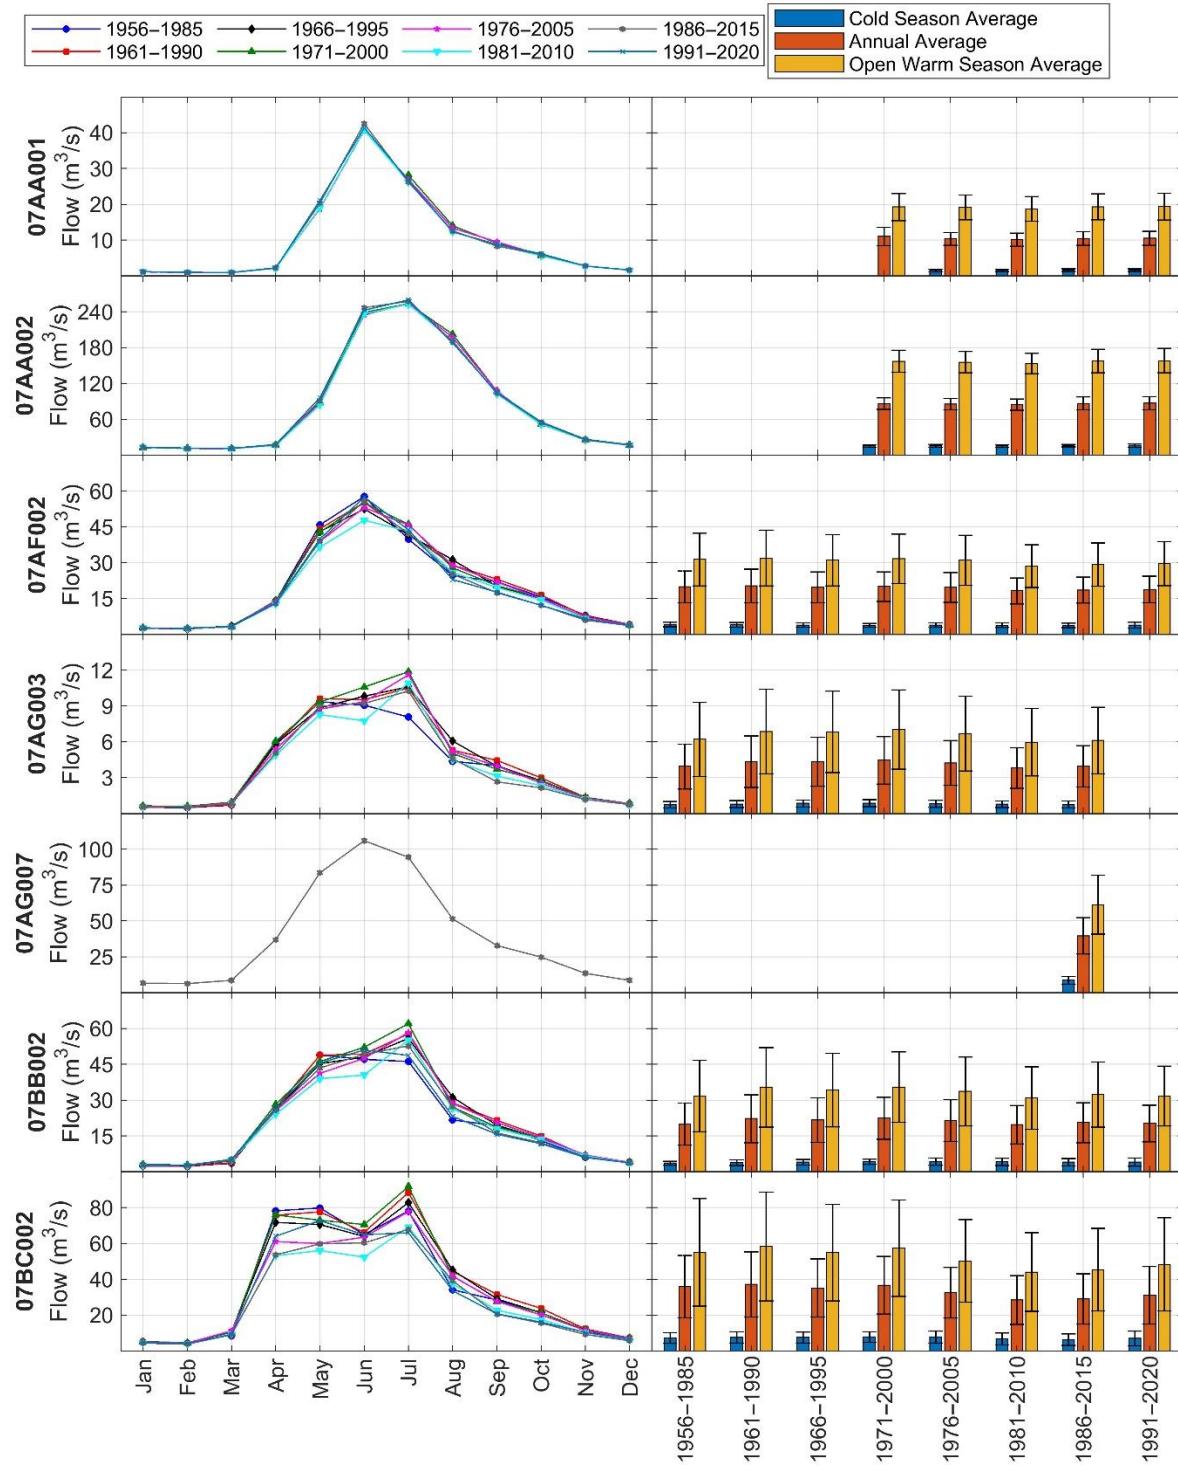

Figure S1: Hydrographs (left panels) and seasonal averages with standard deviation (right panels) of ARB stations.

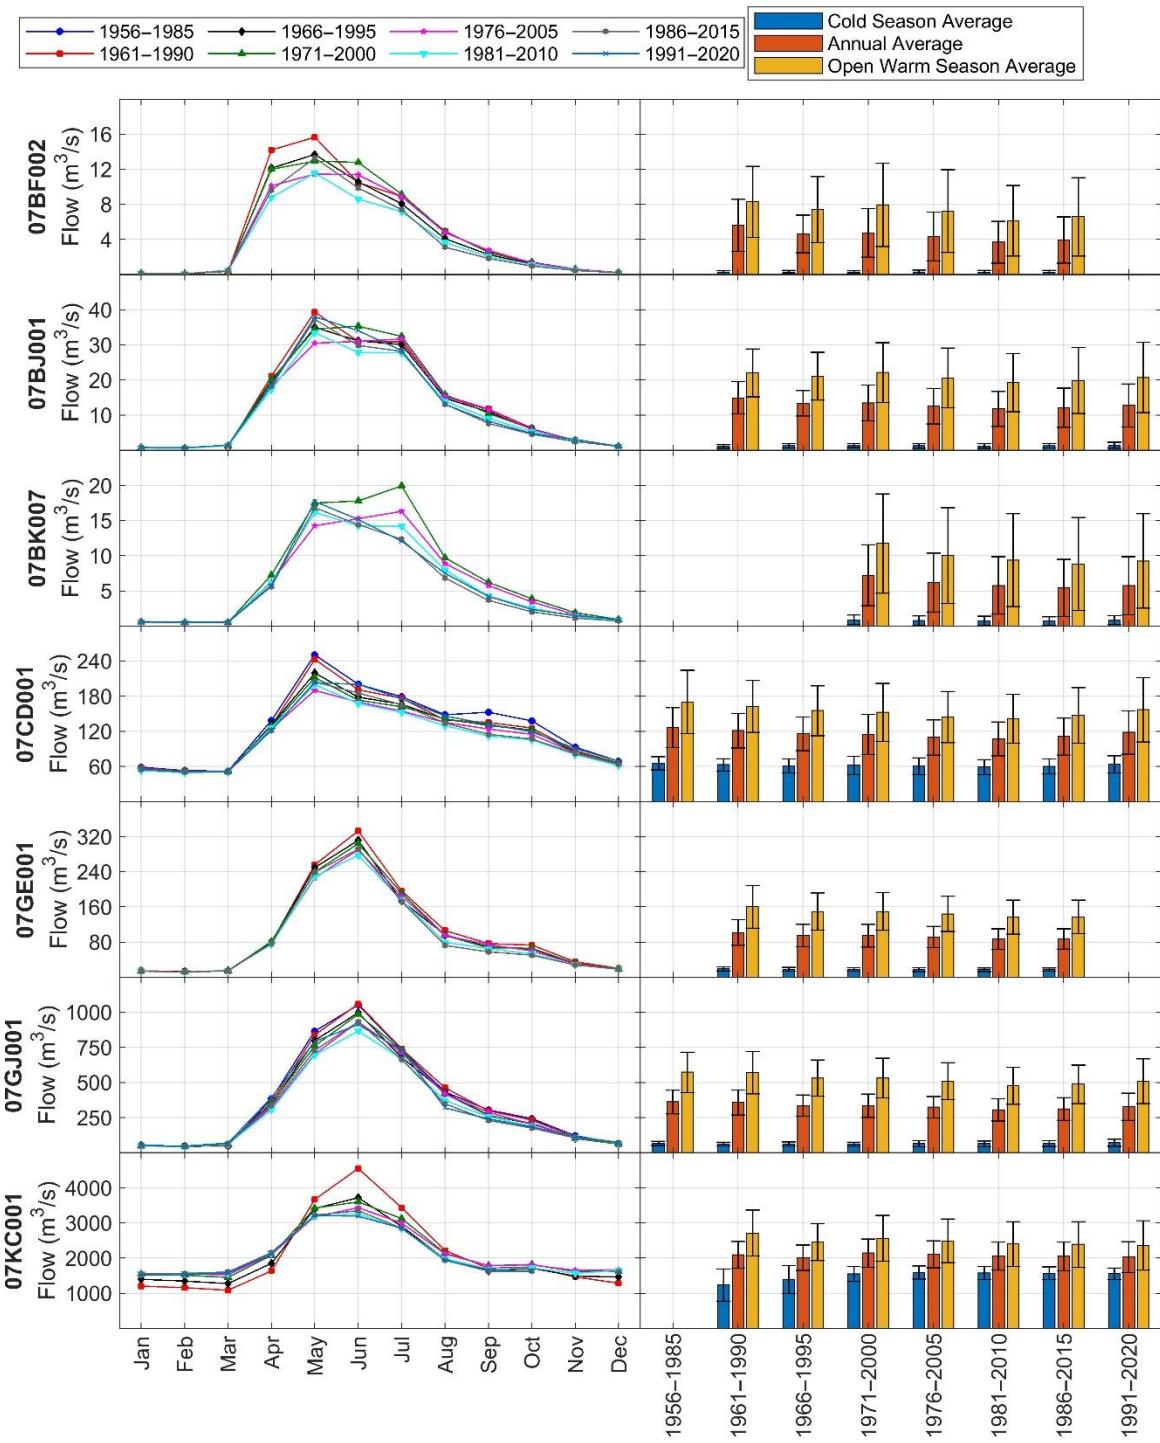

Figure S2: Hydrographs (left panels) and seasonal averages with standard deviation (right panels) of ARB stations (continued).

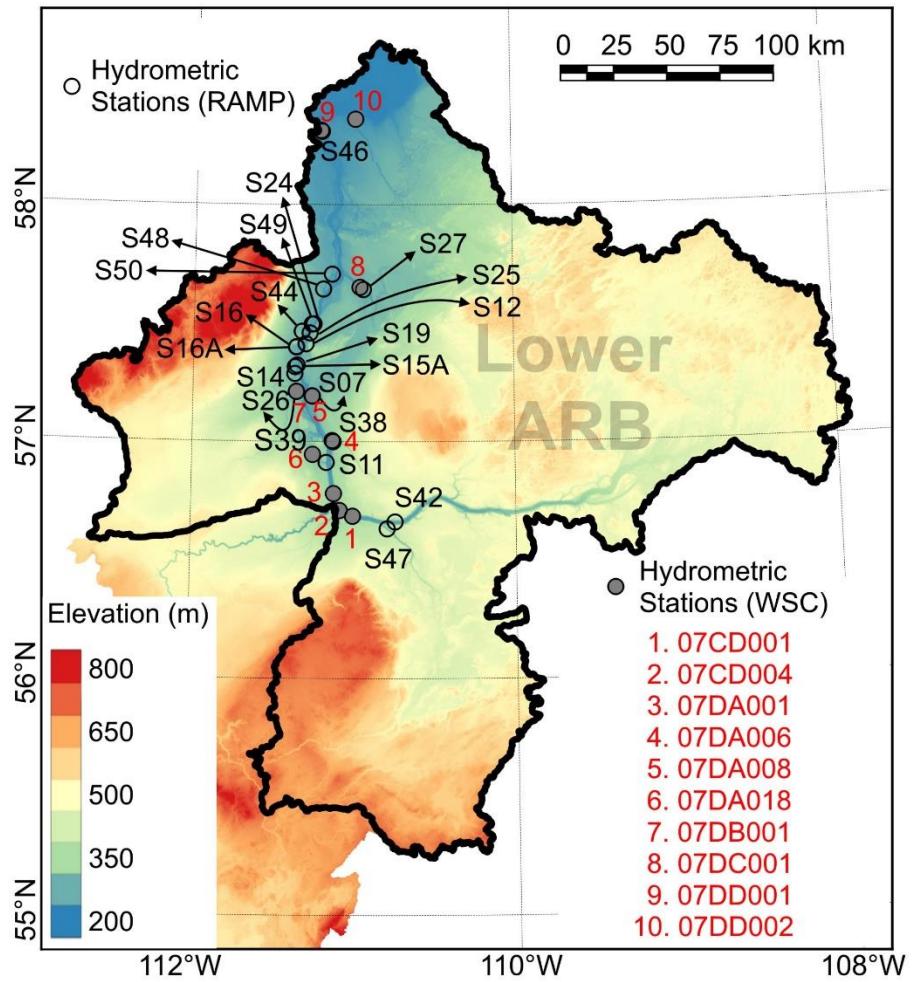

Figure S3: Map of the RAMP and WSC gauging stations in the lower ARB. Some stations were replicated in the RAMP and WSC data under different IDs: 07DA006-S38, 07DA008-S07, 07DA018-S39, 07DB001-S26, 07DC001-S27, and 07DD001-S46.

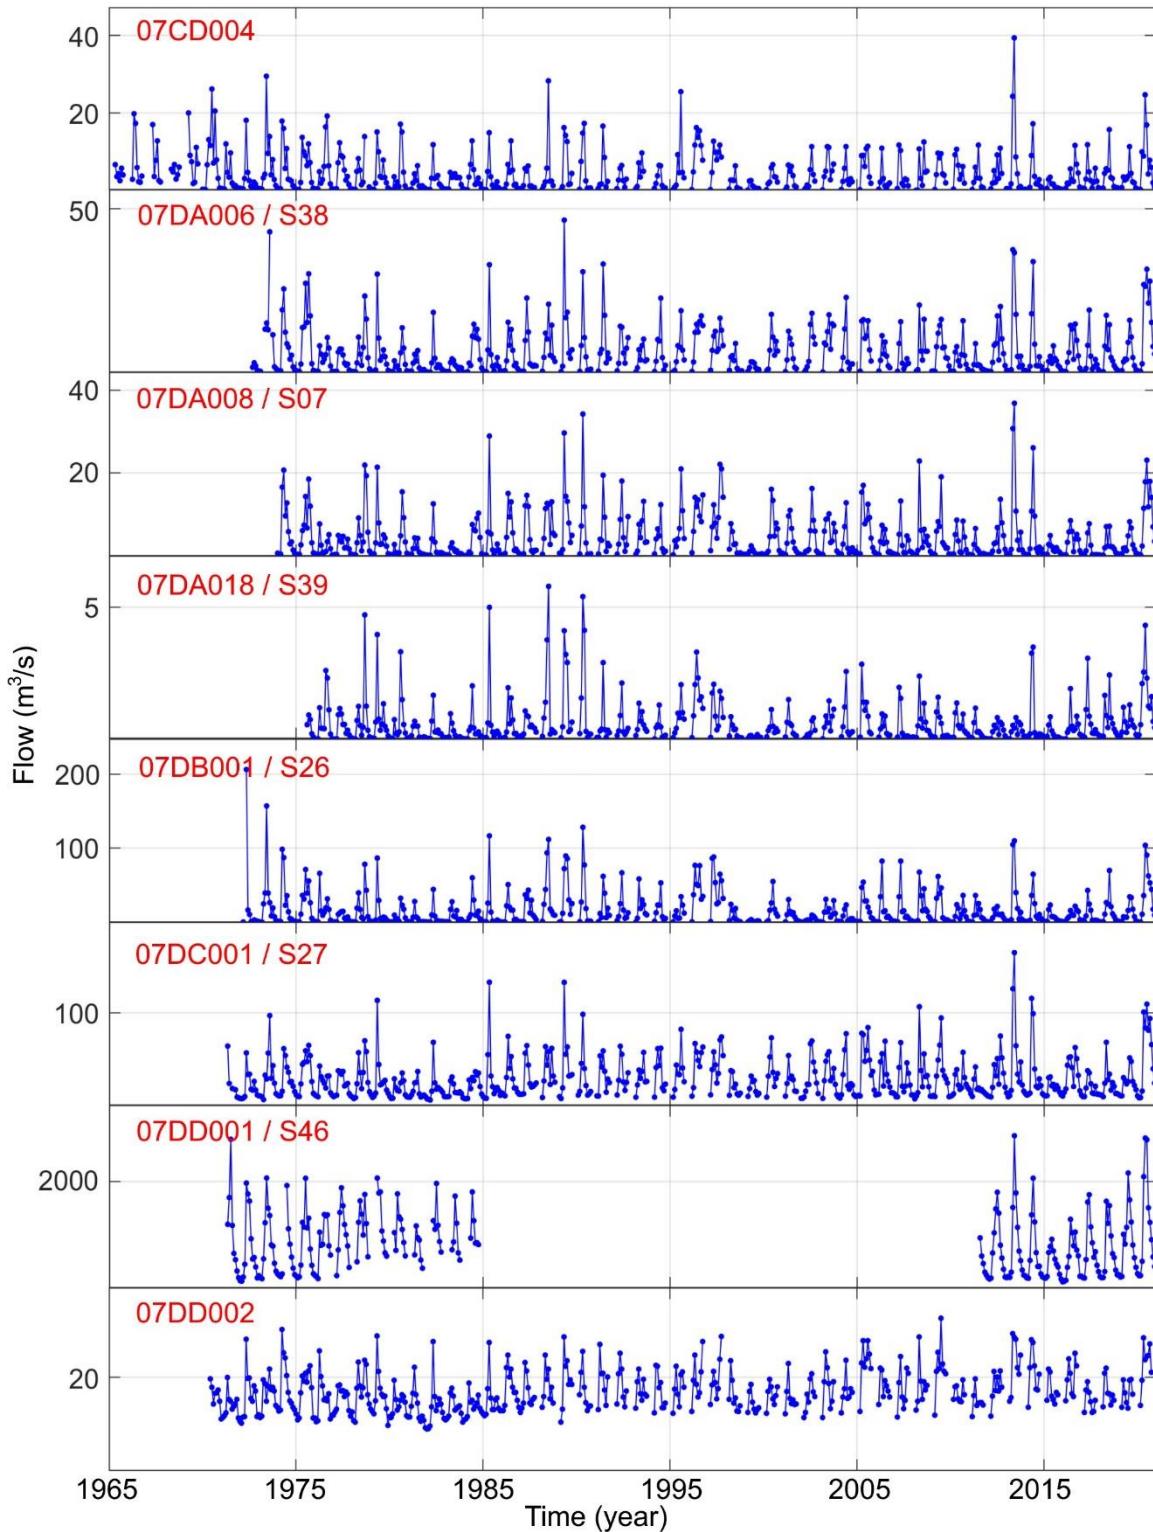

Figure S4: Hydrographs of the WSC stations between 1965 and 2020.

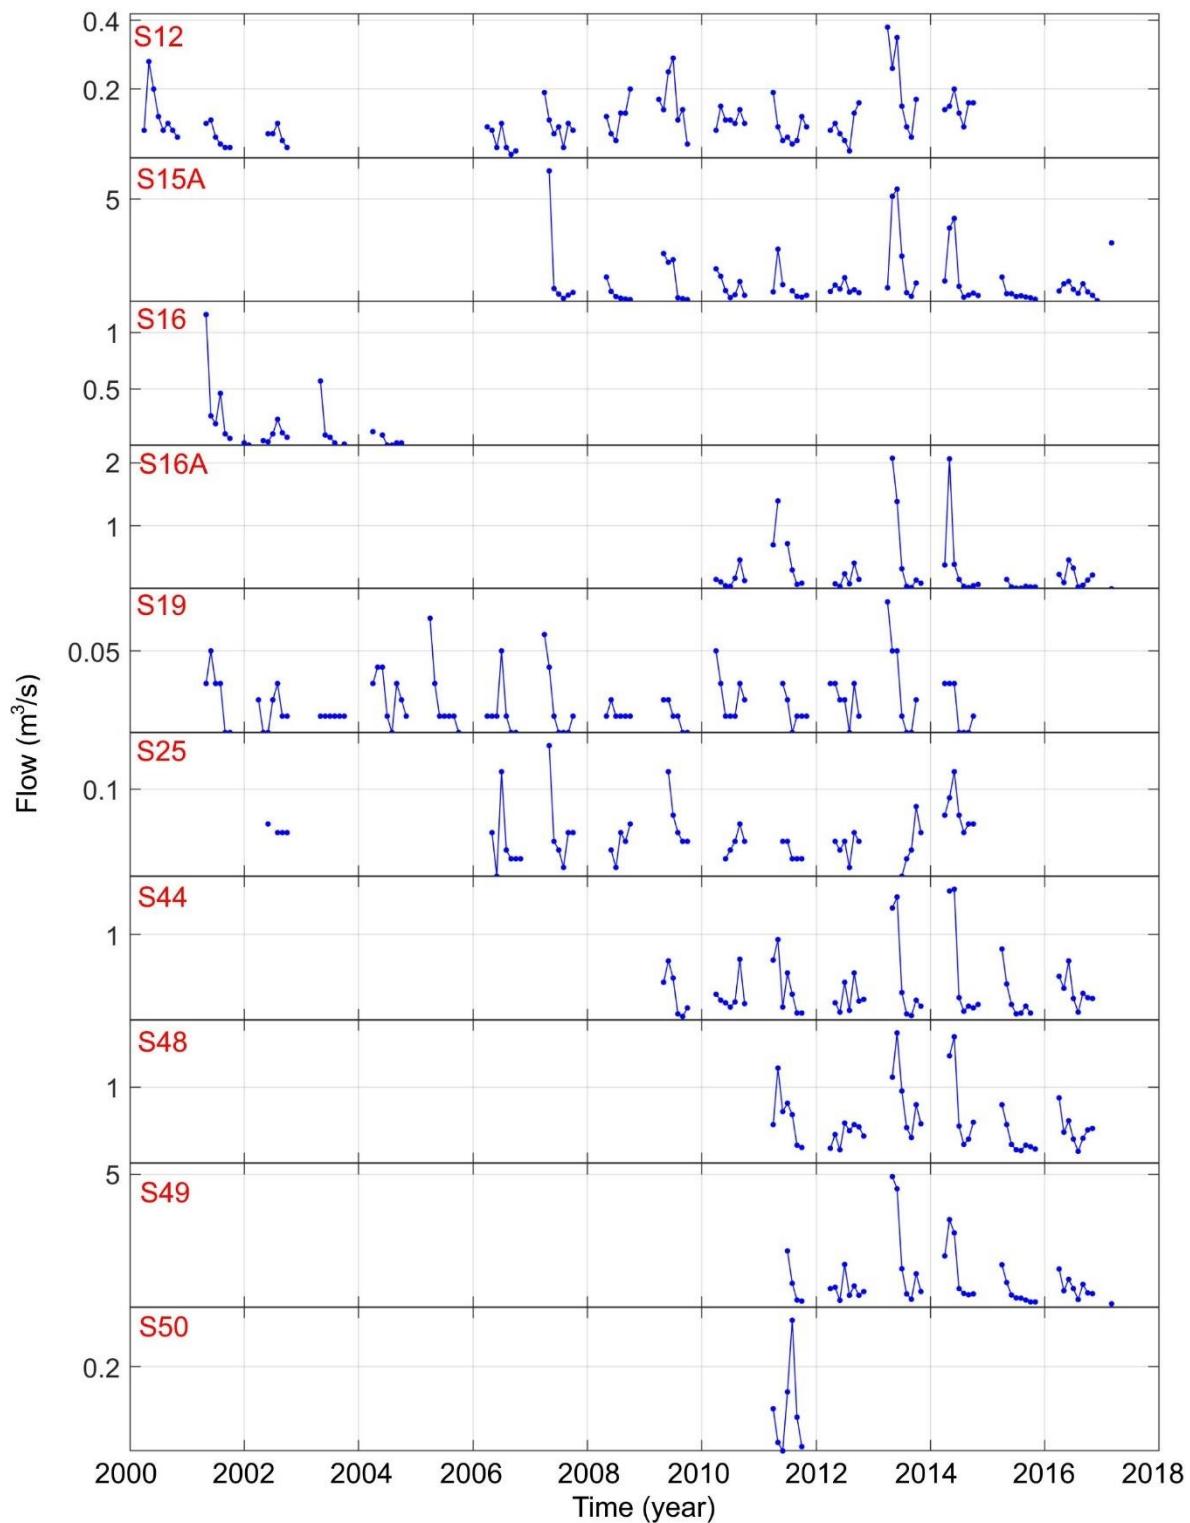

Figure S5: Hydrographs of the RAMP stations between 1996 and 2017.

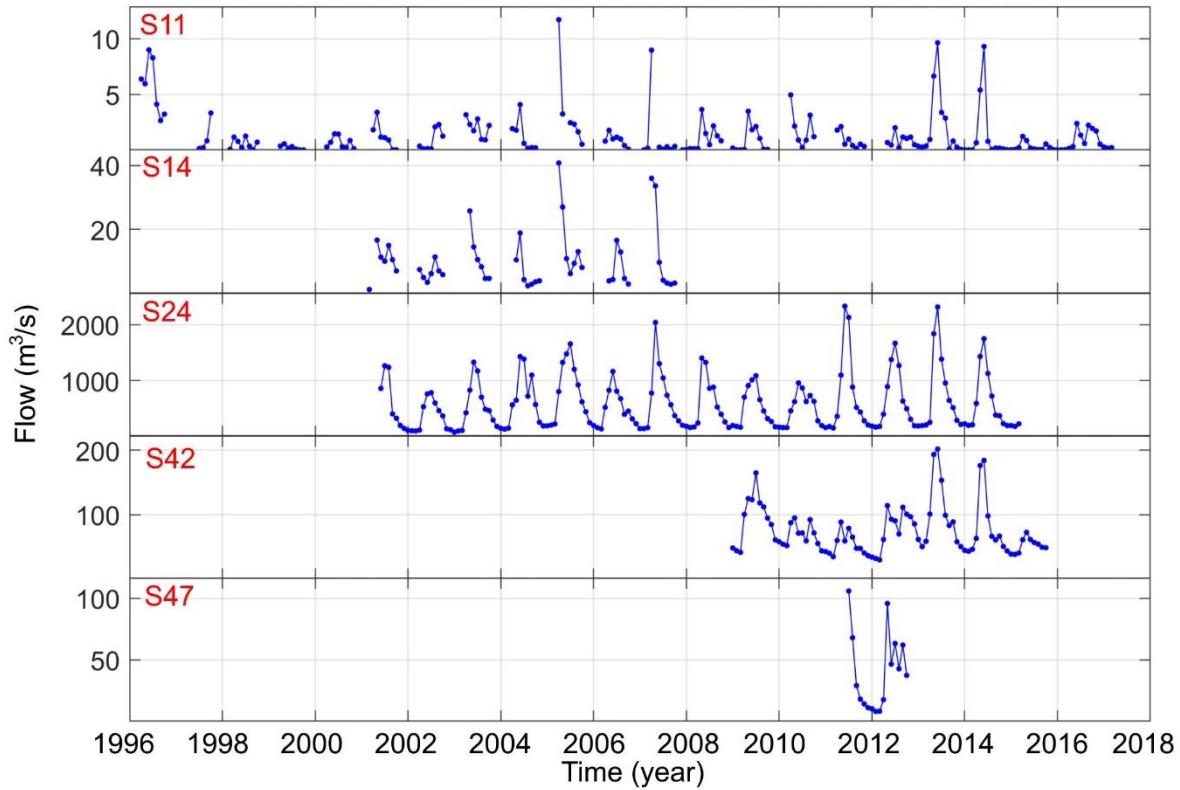

Figure S6: Hydrographs of the RAMP stations between 1996 and 2017.

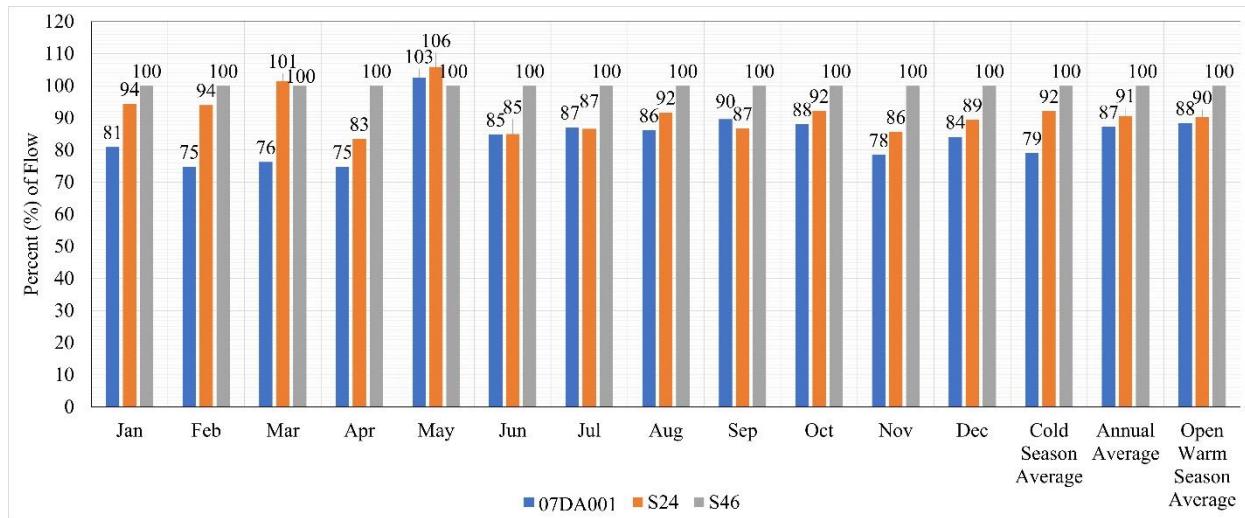

Figure S7: Average flow percentages of hydrometric stations at Fort McMurray, Athabasca River below Eymundson Creek, and Embarras Airport for the years 2012, 2013, 2014).

Table S1: Mann-Kendall streamflow slope and significance for a period of 30 years (1991-2020). The statistically significant slopes are marked by stars: (* = 90%), (** = 95%), (***) = 99%).
